380 S Center St: Mix-use Proposal

Owners: Dennis & Osman Akpinar

380scenter@gmail.com

(860) 849-9515

July 7th, 2023

380 S Center St, Windsor Locks, CT 06096

To whom it may concern,

In March, 2023 I purchased the property at 380 S Center St. As it currently stands, it is zoned as a Bus-2 zone. Originally it was a residential building when it was built in the 50s with an extension being added in the 80s. Since then, it has been converted to office space. However, the pandemic has caused the need for small office units such as this be less in demand. I am proposing to change the zone to a mix use, allowing me to convert the second floor into four separate efficiency style apartments.

The plan to convert the units into apartments are fairly simple and minimal.

It would involve:

- the removal of three walls
- add showers in each existing bathroom
- add one new bathroom
- add kitchenette in each apartment
- move three doors to slightly different positions
- soundproof between first and second floor
- no exterior changes

The first floor will stand as is with two larger units for separate businesses. There is also one room that is unconnected from the two units that is used as the managing office. All downstairs units have separate entrances from each other and the second floor. The parking lot has a capacity of twenty-five parking spots which can more than accommodate the needs of all tenants. In addition there is a grassy picnic area for tenants to access. The basement will be used to provide addition storage space for the apartments. All in all, the proposed change would allow for new affordable housing while still leaving units available for businesses to operate in the town of Windsor Locks.

Sincerely,

Dennis Akpinar

PLANNING AND ZONING COMMISSION TOWN OF WINDSOR LOCKS 50 CHURCH STREET WINDSOR LOCKS, CT 06096

Dear Applicant:

This sheet acts as an introduction to the land use development process in Windsor Locks. Please use the following friendly reminders as a first resource for your inquiry and see the appropriate regulations, portions of which are attached in this packet, for complete requirements.

- Any use marked SP (Site Plan Review) or SU (Special Use Permit) requires an application to the Planning and Zoning Commission, see Section 402 of the Windsor Locks Zoning Regulations. Regulation Amendments, Zoning Map changes, and Subdivision proposals also require Planning and Zoning Commission approval. Some applications also require approval by the Inland Wetland and Watercourses Commission. Copies of the Zoning Regulations, Subdivision Regulations and Inland Wetlands Regulations are available on our website, can be emailed to you or provided in hard copy for your review.
- 2. For Site Plan and Special Use Permits see Sections 1102 and 1103 of the WLZR for a complete list of requirements. You are required to submit sixteen (16) copies of site plans (live seals are required) and all supporting documentation. Nine (9) of the sixteen sets are for the members of the Commission and may be reduced onto 11"x17" sheets. The remaining seven (7) copies are for staff review and shall be submitted on full 24"x36" or half 18"x24" sheets at the required scale. The Planning and Zoning Commission and staff request that applications and plans are submitted at least two weeks prior to the next regularly scheduled meeting in order to review materials.
- Applicant shall send or personally submit the sixteen (16) application copies, site plans, supporting documentation and fees to:

Attn: Jennifer V. Rodriguez, Town of Windsor Locks
Building and Land Use Department
50 Church Street – Room 122 West Wing
Windsor Locks, CT 06096
B60/627/1447 or irodriguez@wiocks.com
Town Hall Office Hours: M-W 8:00AM – 4:00PM, TH 8:00AM – 6:00PM, F 8:00AM – 1:00PM

- 4. If a public hearing is required you must 1) file a copy of your application, site plan and all supporting documentation with the Town Clerk at least ten days prior to the public hearing date. Failure to file with the Town Clerk when required will mean your public hearing must be rescheduled, since to go forward would be a violation of the Connecticut General Statutes and 2) pick up and post a public hearing sign(s) as required per zoning regulations.
- The applicant is responsible for obtaining written comment to the Planning and Zoning Commission regarding the applicant's proposal from the following departments:

Fire Department Police Department Inland Wetland and Watercourses Commission

Thank you for your inquiry and your interest in locating your business in the Town of Windsor Locks. This checklist offers no legal advice regarding your application. Legal questions shall be referred to the applicant's attorney.

Alan Gannuscio, Chair of the Planning and Zoning Commission

Revised March 5, 2015 Approved by the Planning and Zoning Commission April 13, 2015 Effective May 1, 2015

REQUIRED INFORMATION 1102

A. SITE PLAN & SPECIAL PERMIT REQUIREMENTS (Note: Section 1102A was replaced on 7-1-1998; this section was revised effective 2-1-03, 11/10/08 and 5/1/15) An application for site plan approval or a special use permit shall include the following:

Submit sixteen (16) sets of plans, drawn at a scale of one inch equals forty feet (1"=40"), signed and scaled by the appropriate professionals. For smaller sites in which the entire development area can be contained on one sheet, plans drawn at one inch equals twenty feet (1"=20") are permitted.

All site plan sheets showing proposed site improvements shall be signed and sealed by both a Connecticut licensed land surveyor and a Connecticut licensed professional engineer. Where separate surveys showing existing conditions are submitted, the surveyor shall also sign and seal the site plan sheets showing topography, boundary and existing improvements. The purpose of the surveyor's signature on the site plan is to declare that the existing boundary, topography and improvements shown thereon are consistent with the submitted survey. Notations limiting the surveyor's liability to this intent are permitted.

Nine (9) of the sixteen sets are for the members of the Commission and may be reduced onto 11"x17" sheets. The remaining seven (7) copies are for staff review and shall be submitted on full 24"x36" or half 18"x24" sheets at the required scale. All plan sets shall be delivered by the applicant to the Building, Planning and Zoning Department.

Applicants may request a preliminary staff meeting to review site plans and special use permit proposals prior to submission of an application.

Applicants are encouraged to submit all plans, supporting documentation and fees required for a complete application at least two (2) weeks prior to the next Planning & Zoning Commission meeting. Such applicants may be permitted to present their application at that meeting and shall be given scheduling priority over applications submitted less than two (2) weeks prior to the meeting.

Applications shall be submitted on forms obtained from the Building, Planning and Zoning Department. Applications shall be accompanied by the appropriate fee(s), except that the Commission and the Town shall be exempt from application fees. Applications shall be signed by the applicant and the owner of the property or by the designated agent where written permission has been given by the property owner.

The date of receipt of an application to the Planning and Zoning Commission shall be the day of the next regularly scheduled meeting of the Commission immediately following the day of submission of the application to the Building, Planning and Zoning Department, or 35 days after the day of submission to the Building, Planning and Zoning Department, whichever is sooner. An incomplete application may be received by the Commission and then later denied for lack of information.

Plans shall include:

- Name and address of owner of record, developer and professional(s) preparing the plans.
- b. scale of drawing;
- date of preparation and revisions with description of all changes;
- d all variances granted by or pending before the Zoning Board of Appeals which affect the subject parcel.
- e. notes identifying other plans referenced in the preparation of the submitted survey,
- f. a reference to how the subject parcel was created (i.e., the name and date of approved subdivision plan, lot split recorded by volume and page, or statement indicating lot was created prior to adoption of zoning
- g. a Zoning Data Table comparing the required, existing, and proposed zoning data from sections 403 or 404 for the subject parcel(s).

2. SURVEY REQUIREMENTS

- The entire property boundary prepared in accordance with Sections 20-300b-1 through 20-300b-20 of the Regulations of Connecticut State Agencies - "Minimum Standards for Surveys and Maps in the State of Connecticut" as endorsed by the Connecticut Association of Land Surveyors, Inc. The Commission may modify this requirement where work is to be done on only a small portion of a parcel
- The survey shall show all existing and proposed improvements and shall conform to Class A-2 accuracy. Horizontal datum shall be NAD 1983, or as otherwise approved by the Town Engineer.
- The survey shall include topographic data in the area of the proposed development. Existing and proposed contours, if applicable, shall be shown at two-foot intervals and spot elevations shall be added in flat areas or to show design details. Vertical datum shall be NAVD 1988, or as otherwise approved by the Town Engineer. The vertical datum shall be specified in the drawing notes and a permanent benchmark shall be shown on the plans. The topographic survey shall conform to class T-2 accuracy. Aerial T-3 topography may also be permitted, when verified by the surveyor's supplemental field topographic survey to the satisfaction of the Town Engineer.

3. AREA MAP

An Area Map shall be provided, at a scale of one inch equal one hundred feet (1"=100"), or as otherwise approved by the Town Engineer. The Area Map shall show all properties within three hundred (300) feet of the perimeter of the subject parcel with:

- a. owners' names and mailing addresses, by note or attached list;
- b. significant man-made features;
- use and zoning district of each property.

4. SITE FEATURES

- a. Show location, size and height of all existing and proposed structures above ground and below ground, if
- Indicate the present and proposed use of all existing structures, if other than a one or two family residence.
- Show dimensioned layout of existing and proposed parking and loading facilities and access thereto. including any parking barriers or walkways. Specify existing and proposed surface treatments.
- d. Show all fencing, walls, guide rails, traffic signage and other features related to the site design.
- e. Wetland soils, watercourses, and all regulated areas shall be indicated if on the proposed site or off-site if affected by the development. Inland Wetland Agency approval and conditions of approval shall be noted on the plan.

5. FROSION CONTROL

An Erosion and Sedimentation Control Plan and narrative shall be submitted with the application if required by Chapter X of these Regulations.

UNDERGROUND UTILITIES

- All utilities constructed with public streets or easements shall conform to the Windsor Locks Public Improvements Manual, latest edition. Copies of the manual are available from the Public Works Department.
- b. The location and size of all existing and proposed sanitary and storm sewers, catch basins, manholes and culverts with pipe invert (flow line) and frame (rim/gutter) elevations of all structures.
- c. Methods of proposed sanitary sewage disposal into the Town's sanitary sewer system shall be indicated.
- d. Calculations shall be submitted by the professional engineer demonstrating proper design of the storm drainage system.
 - All storm drainage piping shall be sized to accommodate a 25 year storm.
 - ii. The drainage system shall be designed so as not to adversely impact downstream properties. Postdevelopment flow rates shall be maintained to match pre-development rates where required to protect downstream properties from flooding and/or soil erosion.
 - iii. Stormwater treatment shall be provided in accordance with accepted engineering practices and the Connecticut Stormwater Quality Manual, latest edition.

iv. Groundwater recharge of pre-treated stormwater shall be utilized where soils permit to reduce post-

development runoff volumes.

v. Stormwater detention/retention systems, where required shall be designed to provide zero increase in peak runoff rates for the 2-year, 25-year and 50-year storms. The Emergency overflow structures shall be provided to convey the 100-year storm. Commission may also require a detention system to provide zero increase in peak runoff rate for the 100-year storm when recommended by the Town Engineer.

vi. Construction and maintenance easements, including access roads as well as fencing and planting. shall be provided as required by the Commission.

vii. Show location of existing and proposed water supply.

LIGHTING

Provide details for all proposed pole and building mounted lighting along with applicable photometric data demonstrating conformance to section 705.F.4.

Show the type, size and location of all signs where applicable. Plans shall include a sign calculation data block demonstrating conformance to the regulations.

LANDSCAPING

- The plans shall include a Landscape Plan showing existing trees and plantings with species and sizes indicated:
- b. trees and plantings proposed for removal; and
- the size, name (botanical and common) and location of all required and/or proposed screening or landscaping.

10. ARCHITECTURAL PLANS

Provide floor plans and elevations of all proposed buildings or changes to existing buildings.

11. APPROVAL BLOCK

Plans shall include space for review, comments and signatures of pertinent officials. The cover sheet and all sheets to be filed shall include the Windsor Locks Planning & Zoning Approval Block, which is available at the Building Department.

12. DIGITAL DATA SUBMISSION REQUIREMENTS (The digital data regulations were added effective June 15, 2005.)

The following requirements apply to the submission of site plans and special permit applications as well as for plans and as-built drawings for infrastructure projects (water/sewer installation or repair, road work and other capital improvements.)

 All plans and specifications must be submitted on a CD ROM using an IBM-PC or compatible format. Acceptable formats for filing include AutoCAD*.dwg or AutoCAD*.dxf. The files must be identical to the printed plan and contain all information submitted on the written plan. The electronic submission must contain a signature and certification. Upon completion a digital submission of the "as-built" plan is required for final release of the performance bond associated with any project.

b. All digital mapping data shall be delivered in the Connecticut State Plane Coordinate system with a horizontal datum of NAD83 Feet and vertical datum of NGVD88. All units shall be in Feet. Special exception to this requirement may be given by the Planning and Zoning Commission.

e. Each feature type must be organized in the CAD or GIS data structure as a separate layer. For example, there must be separate CAD layers for buildings, roads, road centerlines, surface water, wetlands etc. Layer names must be understandable by the town of Windsor Locks.

d. CAD data may be tiled on paper, PDF or other form of digital output as individual sheets for improved reliability, but plans should be derived from a single master drawing.

e. Documentation of the data format must be provided with a description of the CAD layers and list of the types of features placed in each layer. Submission of multiple files must also include a list of the files and their purpose.

f. The data submitted must also include documentation on the method used to gather the data, the name of the person(s) responsible for preparing the data, contact information, an estimation of the horizontal and vertical accuracy, and the date of data capture. All media shall be free from any and all defects and

viruses, and labeled as to their content.

13. Such other information as required by the Building Official or the Commission, where a special use permit or site plan approval is required or where it is necessary to determine that the requirements of the Zoning Regulations are met. The Commission may excuse compliance with requirements for specific information otherwise required on the plot plan where such compliance is not necessary to determine that Zoning or other code regulations are met.

approval of the Commission, as provided herein.

C. APPLICATIONS FOR PERMITS

An application for a building permit shall include at least one copy of an approved site plan or plot plan, as the case may be, for the use contemplated.

D. EXCEPTION

When an unsafe building exists or when emergency measures are required under Section 124.0 and 125.0 of the State of Connecticut Building Code, as may be amended from time to time, the Building Official shall have the authority to waive (in writing) any part or all of Sec. 1102A for a period of thirty (30) days before the expiration of which the owner must make application pursuant to Sec. 1102A unless the maintenance and repair which is required does not involve a change in design, exterior appearance, or scale.

(Note: this paragraph was amended on 6-7-1990) E. EXPIRATION OF PLAN APPROVAL

All work in connection with a site plan shall be completed within five (5) years after the approval of the plan. Failure to complete all work within such five (5) year period shall result in automatic expiration of the approval of such site plan. The Commission may grant one or more extensions of the time to complete all or part of the work in connection with the site plan provided the total extension or extensions shall not exceed ten years from the date such site plan is approved. Where a proposal calls for more than one building on a property, the project may be phased, provided that a construction schedule is submitted to and approved by the Commission. The Commission may require submission of a bond(s) to guarantee timely completion of various aspects of the project. Non-compliance may cause witholding of individual Certificates of Occupancy, such as in a multi-unit project, in addition to calling of the bond(s).

F. PERIOD OF PERMITS

A permit shall become null and void six months after it has been issued unless reasonable progress has been made in the work authorized by said permit. The Building Official is authorized to renew a permit for periods of six months if, in his opinion, reasonable progress has been made in the work authorized by said permit.

G. COMPLETION OF SITE WORK (Note: This paragraph was replaced on 7-1-1998 and amended on 5/1/15)

REQUIREMENT OF AS-BUILT PLAN

Prior to the issuance of a Certificate of Occupancy for any structure the owner shall submit an As-Built plan at the same scale as the Site Plan approved by the Commission, showing all improvements as indicated on the approved site plan, including but not limited to building locations, pavement limits, topography, boundary information, proper datum listed, utility locations (including size, depth and other pertinent information such as encasement and elevations of top of frame and flow lines), certification that the site was constructed in conformance with the approved plan with any variations specifically listed.

Where no Certificate of Occupancy is required, the As-Built shall be submitted and approved prior to commencement of the new use or prior to use of the new structure. Plans shall be stamped by a land surveyor, licensed to do business in the State of Connecticut, and certified to conform to class A-2 and T-2 accuracy.

Where a certificate of occupancy is requested for a new single family home that did not require approval by the Commission, the Zoning Enforcement Officer shall require an as-built plan to guarantee compliance with associated plans and approvals.

REQUIREMENT OF BONDS

The Commission may require submission of a bond(s) to guarantee timely completion of various aspects of a project. Where a proposal calls for more than one building on a property, the project may be phased, provided that a construction schedule is approved by the Commission. All site work shall be completed prior to issuance of a certificate of zoning compliance. Non-compliance may cause withholding of individual certificates, such as in a multi-unit project, in addition to call of the bond(s). Whenever substantial workremains to be done and the applicant requests a certificate of occupancy, said remaining work shall be guaranteed by a bond and a time schedule shall be approved by the Commission. Where a certificate of occupancy is requested for a project that did not require approval by the Commission and site work is incomplete, the Building Official may require the posting of a bond to guarantee completion of the work in a timely fashion.

All special permit uses, identified as such in Sec. 402 or elsewhere in these Regulations are declared to
possess characteristics of such unique and distinct form that each specific use shall be considered as an
individual case. Special permit uses shall be deemed to be permitted uses in their respective districts,
subject to the satisfaction of requirements and standards set forth herein, in addition to all other
requirements of these Regulations.

 The Building Official shall refer applications for special use permits to the Commission, at a Regular Meeting, for receipt, hearing and action as required by Sec. 8-7 of the Connecticut Statutes as may be

amended from time to time.

3. The applicant shall post a sign, available from the Building, Planning and Zoning Office, giving notice of the application, in a conspicuous place on the property for which a special use permit approval is sought, no farther than 10° back of the street property line of every street frontage. Signs shall be located as directed by the Town Planner. Where there are more than two street frontages, no more than 2 signs shall be required. Said sign shall be posted ten (10) days before the date of the public hearing, shall remain in place until the hearing is closed, and it shall be removed not later than three (3) days after the public hearing.

 The Commission shall make a finding that each of the following standards is met and where necessary, shall attach specific conditions to its approval of a special use permit, if in its opinion, such conditions

are essential to making the finding:

a. The location and size of the use, the nature and intensity of the operations connected with it, the size of the lot in relation to it, the location of the lot with respect to streets giving access to it, are such that it will be in harmony with the appropriate and orderly development of the district in which it is located.

b. The kind, location and height of all structures and the nature and extent of the landscaping on the lot are such that the use will not hinder or discourage the appropriate development and use of

adjacent properties.

c. The parking and loading facilities are adequate and properly located for the proposed use and the entrance and exit driveways shall be laid out so as to achieve maximum safety. Recommendations

of the Windsor Locks Police Commission shall be considered.

5. After the approval the applicant shall submit to the Commission five (5) prints and one transparency print on permanent material of the plans as approved within 45 days. The Commission shall file with the Building Official one print of the approved plans with any conditions noted thereon pertaining to the special use approval. One print with the approval indicated shall be made available to the applicant.

B. SITE PLAN APPROVAL

 The Building Official shall refer applications requiring site plan approval to the Commission at a Regular Meeting. The Commission shall approve, disapprove or approve with modification such

proposed site plan within 65 days after formal receipt.

2. In acting on a proposed site plan the Commission shall determine that the requirements of the Zoning Regulations are met in fact. The Commission shall consult with the Town Engineer on matters regarding engineering and with any other Town Official or Board it may deem necessary and may also hold a public hearing on the proposal if it decides such hearing would be in the public interest.

 After approval the applicant shall submit to the Commission five (5) prints and one transparent print on permanent material of the approved site plan within 45 days. The Commission shall file with the Building Official one print of the approved plans with any conditions noted thereon pertaining to the site

plan approval. One print with the approval indicated shall be made available to the applicant.

ALL OTHER APPLICATIONS FOR PERMITS

Upon determination of the Building Official that the proposed structure or use complies with the Zoning Regulations, the Building Official shall issue the required permit. One copy of the approved plot plan shall be returned to the applicant with the approval and number of the permit noted thereon. A copy of the permit shall be displayed on the site until a certificate of occupancy has been issued. A copy of the

approved plans shall be available for inspection at the premises during regular working hours.

2. STRUCTURES REQUIRING A FOUNDATION Before the actual placement of the foundation of any structure, the contractor or owner shall stake out the location of the proposed foundation and supply the Building Official with a certificate by a licensed surveyor that the location of such foundation, or any part of a structure to be crected, complies with the approved plot plan. Failure to supply such certificate shall automatically suspend the permit under which the work has been authorized until said certificate has been supplied to the Building Official.

1104 PERIOD OF PERMITS

six (6) months if, in his opinion, reasonable progress has been made in the work authorized by said permit.

ZONING AMENDMENTS 1105

REQUIRED INFORMATION

A proposed amendment to the Zoning Regulations or Zoning Map shall be submitted in correct legal form accompanied by a letter of explanation of why the change is being requested. The Commission shall not be required to provide such letter.

A proposed amendment to the Zoning Map shall include a legal description of the area proposed to be changed and five (5) prints of a map drawn to a scale of not more than one (1) inch to one hundred (100) feet showing the proposed change in the district boundaries of the Zoning Map. All properties within five hundred (500) feet of the proposed change shall be identified as to use and the owners' names and mailing addresses shall be provided for all properties indicated. This requirement shall not apply to comprehensive or large area revisions.

Applicants requesting an amendment to the Zoning Map shall provide a preliminary site plan for property to be developed under the proposed zone. Said plan shall show proposed buildings and uses, parking and loading, preliminary grading, driveway locations and other proposed features that will aid the Commission in its deliberations. Supporting reports such as traffic studies, feasibility reports, etc. shall be submitted at the time of application in order to allow adequate time for review by the Commission and its staff. These requirements shall not apply to proposals by the Commission.

The applicant shall post a sign, available from the Building Official, giving notice of the application, in a conspicuous place on the property for which a zone change is sought, visible from a public street. Said sign shall be posted ten (10) days before the date of the public hearing, shall remain in place until the hearing, and it shall be removed not later than three days after the public hearing.

RESPONSIBILITY TO PROVIDE FILE MAP

If a proposed change to the Zoning Map is approved, it shall be the responsibility of the applicant to provide a transparent print of the change on permanent material to the Commission for filing with the Town Clerk. Said map is to be submitted to the Commission within seven (7) days of approval by the Commission, accompanied by the required filing fee.

SCOPE OF WORK SUMMARY 523 (529) Halfway House Road, Windsor Locks CT

The existing building, formerly occupied by Pratt & Whitney, was constructed in three phases:

- a. The original building, closest to the street, is a masonry structure.
- b. In 1988, a 7,200 SF freestanding pre-engineered metal building was purchased and expanded in 1994 with an additional 16,500 SF by the same pre-engineered metal building manufacturer.
- c. In 1997, the two structures were connected by another addition, also pre-engineered.

The renovations for this project are limited to the area of the engineered metal building that was constructed in 1988 and expanded in 1994 noted "Building 1" on the attached plans. A two-hour rated fire wall will be installed between the "Building 1" to be renovated and the remainder of the building noted "Building 2" on the attached plans will remain "as is".

Demolition will include removing the existing offices, including the mezzanine constructed in 1994 in their entirety. All existing HVAC and Electrical will be removed in its entirety and replaced with new code compliant systems. The air conditioning condensing units will be removed and the building will no longer be air-conditioned. The exterior storage canopy on the west side of the building will also be removed.

No changes to the area of paving. New line striping of the parking is included in the scope of work.

Exterior renovations include removing two sets of windows on the first floor and one double door on the East side of the building. A total of 17 new 14'-0" tall overhead doors and 17 new 3'-0" x 7'-0" Hollow Metal Egress doors to match existing will be installed. One dark sky compliant light fixture will be installed at each exterior egress door (23 Total).

Interior renovations include new metal framed and gypsum board partitions at each structural bay, egress corridor, ADA upgrades to the existing bathrooms, plus all new electrical and mechanical systems.

The building was originally used as a Turbine Engine Repair Shop. The recent owner used the entire building for storage of surf boards and will continue to occupy "Building 2" for the next 18 months. The renovations of "Building 1" will create 20 new self-storage units of approximately 1000 SF each. Occupants may include storage for personal items including vehicles, contractors, a trucking company, and similar small businesses with low to moderate hazard storage needs.

Sincerely,

Cheryl Newton, AIA

RE: Special Permit Application for 523 (529) Halfway House Road, Windsor Locks CT

Dear Jennifer,

Thank you for your time in reviewing the attached application for a special permit to renovate a portion of the building located at 523 (529) Halfway House Road into 20 storage units of approximately 1000 SF each. Enclosed is (16) copies of the original survey by Neriani Surveying dated July 26, 2016, Sheet A1.0 showing the existing conditions exterior elevations and floor plans (including proposed demolition), Sheet A1.1 showing the proposed layout of the 20 storage units and exterior elevations, and sheet L-1 with a site plan showing the proposed parking layout.

As discussed in our meeting on Monday, July 3, 2023, we believe the scope of work may not necessitate a formal hearing. We would like to request the project is reviewed by the Town administration.

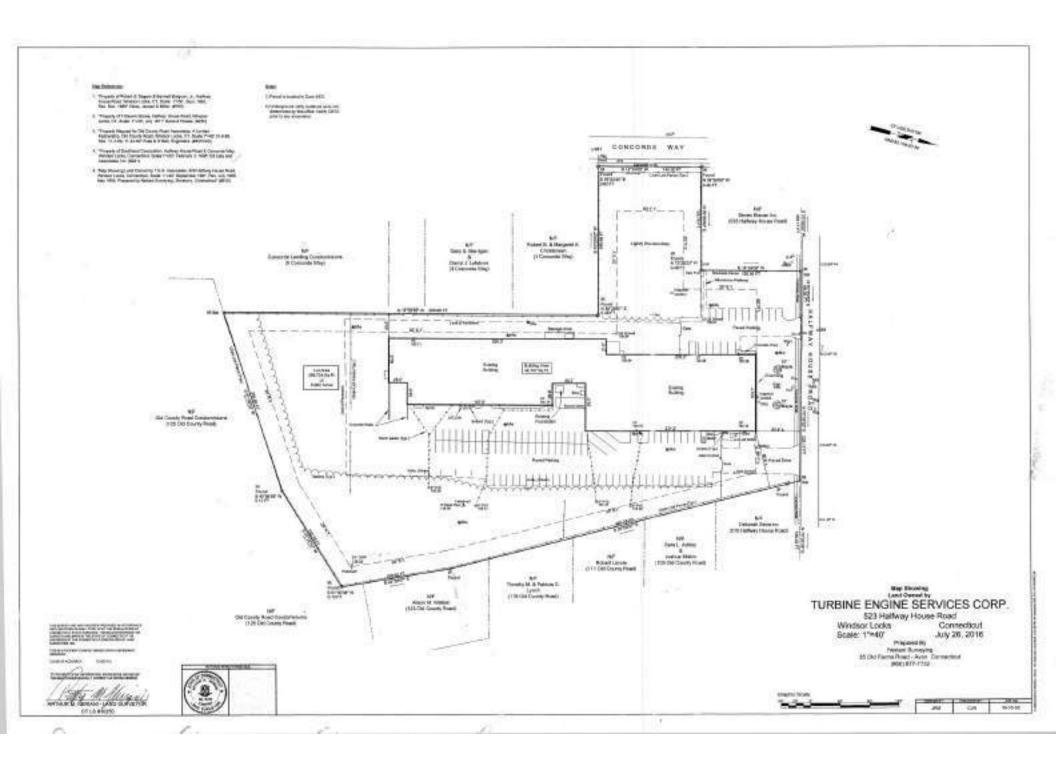

There will be no changes to the area of paving at this time. Line striping of the parking is included in the scope of work. The proposed site plan utilizes the parking layout shown on the Survey dated 7/26/2016 to incorporate the current requirements ADA compliant parking, dimensions for the fire lane and percentage of impervious coverage. We are also proposing an additional 14 parking spaces along the fence on the south side of the building.

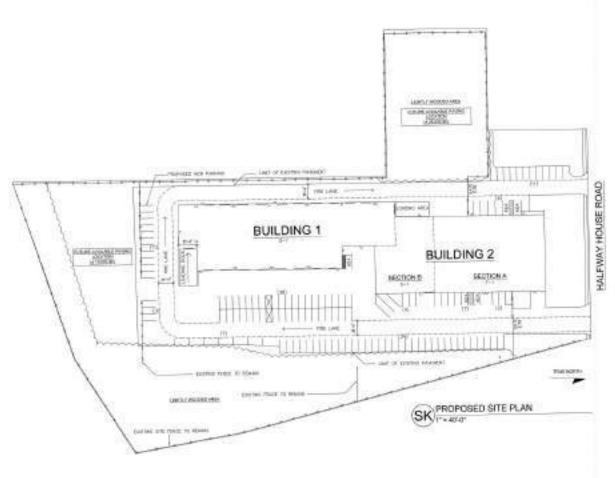

Our plan is to renovate the "Building 1" as phase 1 of the project. The recent owner, who stores and distributes surf boards, will continue to occupy "Building 2" for the next 18 months. Occupants of the new storage units may include storage for personal items including vehicles, contractors, a trucking company, and similar small businesses with low to moderate hazard storage needs. "Building 2" will remain "as is" until a potential tenant expresses interest. The original use of the building was a Turbine Engine Repair shop for Pratt & Whitney. There is ample space available on site to expand the parking when we renovate "Building 2" in the future.

Sincerely,

Cheryl Newton, AIA

Planning and Zoning Commission Attn: Jennifer Valentino Director of Planning & Development Town of Windsor Locks 50 Church St Windsor Locks, Ct 06096

Dear Ms. Valentino,

Attached is my application for the Planning and Zoning Commission requesting a change to section 215 of the Zoning Regulations.

Statement of Purpose: To update the Zoning regulation regarding the keeping of poultry on residential properties. This change would enable more families to produce fresher, more nutrient rich eggs and it would allow domestic poultry to be kept as pets, show birds, 4H & Vocational Agriculture projects and be raised to preserve heritage breeds in danger of extinction. More sustainable living would be achieved by providing bug control, nutrient rich fertilizer, and by poultry consuming food scraps, leaves and grass.

Definitions: Taken from the Connecticut Department of Agriculture website:

<u>Livestock</u>: "The definition of livestock is any camelid or hooved animal raised for domestic or commercial use." (CGS § 22-278).

Poultry: "Poultry are defined as any species of domestic foul raised for food production, breeding, exhibition or sale." (CGS § 22-326s(5)).

Proposed amendments:

Section 215 Livestock for Domestic Use. In residential zones, livestock for domestic use or home consumption but not for sale may be kept on any lot containing more than two acres in area, provided that no building housing such animals is located nearer than 100 feet to any street or property line and provided further that no more than one horse or cow, or two goats or sheep, may be kept per acre of lot area. Poultry or rabbits, or similar small animals, for domestic use only and not for sale, are permitted in a building or enclosure, not less than 100 [25] feet from any [side or rear] property line, [and 75 feet from the] or street line. [Roosters are prohibited from being kept in residential zones.] [All poultry, rabbits and small animals are to be kept in the appropriate building or enclosure and are not allowed to roam onto adjacent properties.]

Samples of setbacks for poultry housing in other towns in North Central Connecticut:

Town	Setback Requirements
East Granby	1.5 times the maximum height of the building or 1.0 times the longest dimension of the building.
Enfield	10 feet from side and rear lines. 25 feet from any home on adjoining properties
Suffield	75 feet from street line, 25 feet from side and rear property
Tolland	75 feet from the front property line, 25 feet from side and rear
Vernon	10 feet from side and rear lines.
Wethersfield	100 feet from the street line, 50 feet from rear property line 25 feet from side property lines.
Windsor	15 feet from each side and 25 feet from the rear.

As requested, I have enclosed 12 copies of this letter and my application, and I have emailed you a pdf of both. You will also find a check made payable to the Town of Windsor Locks for \$360 for the associated fee.

Sincerely,

MaryAnn Moskey

Joyce Waterman 1 Center Street Windsor Locks, CT 06096

Windsor Locks Zoning Commission Church Street Windsor Locks, CT 06096

Reference: Zoning Meeting Regarding Chickens

To Whom it May Concern:

It has come to my attention that there is a Zoning Commission meeting scheduled for June 12, 2023 at 7:00 PM regarding the possibility of changing the zoning law regarding the area required for the ownership of chickens in a residential zone.

I will start by saying that I have lived at 1 Center Street, Windsor Locks, CT for over 43 years.

Approximately 5 years ago, the owner of 57 Elm Street, Windsor Locks, CT had chickens in their very small back yard which was a violation of the present zoning law. Both of our yards face the woods that go down to Kettle Brook and my wooded area plus the wooded area of 57 Elm Street were visible from my back yard at 1 Center Street.

While the chickens were alive, I was faced with finding groups of snakes, although harmiess, at the edge of my back yard. Their sudden moves were startling to say the least. I have never seen snakes in my yard prior to the chickens being there. In addition, there was at least one fox that prowled around. On 2 occasions, I was facing that fox that stood about 12 feet away from where I was.

My concern is this. I have nothing against chickens when they are in an area large enough to be housed safely and do not affect the neighbors. I have grandchildren who play in my back yard and will use this as an example of why the zoning regulation of 100 feet should remain the rule. The problem is that there are other animals, rodents, etc. that are attracted to areas where chickens exist. If the amount of space between the chickens and the neighbors is smaller than 100', those neighbors could very well be faced with the same problems I had. My family was leery to be out in the back yard and it was especially scary to mow the lawn and see the sudden movement of snakes. This is not an experience that I would impose on anyone, especially those with small children or pets.

Please submit this letter as part of the official notes of the meeting. I believe it is important enough to address this for all the reasons stated above.

Thank you.

Joyce Waterman

RE:

Section 215 Text Amendment Request

Date:

June 10, 2023

Applicant, MaryAnn Moskey, has submitted a text amendment request to reduce the yard requirements for enclosures for poultry or rabbits, or similar small animals, for domestic use only and not for sale from 100 feet from all property lines to 25 feet to rear and side yards and 75 feet from the street line (front property line). The proposal also adds that roosters would be prohibited and such animals are to be enclosed and not allowed to roam onto adjacent properties. The applicant has also added a purpose statement and two clarifying definitions.

CONNECTICUT GENERAL STATUTES 8-3(b), REGULATION CHANGES and POCD:

- CGS 8-3(b), "Such regulations and boundaries shall be established, changed, or repealed only by a <u>majority vote of all the members</u> of the zoning commission, except as otherwise provided in this chapter. In making its decision the commission <u>shall take into consideration the plan of conservation and development</u>, prepared pursuant to section 8-23, and <u>shall state on the record its findings on consistency of the proposed establishment</u>, <u>change or repeal of such regulations</u> and boundaries with such plan." CAPITOL REGION COUNCIL OF GOVERNMENTS: This office is in receipt of a letter which can be read into the record. No conflicts were reported.
- The Commission will want to consider the chart submitted by the applicant related to setbacks found in other communities and all other information submitted by staff, as well as testimony by the public.

Motion for Consideration, written in the affirmative:

MOTION to approve the regulation amendment of Section 215 requested by applicant MaryAnn Moskey, regarding small animals and the addition of two definitions as presented on July 12, 2023.

CT Farm Bureau: 75EA665B-2E0C-45A6-97F7-1CEE69FB2347.LivestockGuidanceBookWEB-002-FINAL.pdf

Norfolk: For us, these are outbuilding structures, subject to normal regs and setbacks.

From Enfield Zoning Regs.:

4.60.10.5 Buildings housing chickens/fowl and fenced enclosures

Any building or enclosure used for housing chickens/fowl and associated fenced enclosures shall be located behind the rear line of the house and be at least 10 feet from side and rear property lines, and at least 25 feet from any residential dwelling on adjoining property.

Milford's Poultry Regs:

3.1.3.4 The Keeping of Domesticated Poultry

Subject to Administrative approval by the Planning and Zoning Office and the following conditions and safeguards:

- (1) Statement of purpose. This regulation is intended to make provision for the limited keeping of female poultry, henceforth referred to as hens, on certain residential properties for the health, convenience and personal enjoyment benefits afforded by such use in a manner which preserves the quality of life of the surrounding neighborhood. The provisions of this ordinance shall not apply to a regularly operated farm, as defined herein.
- (2) shall be defined as the various domesticated breeds of chickens (Gallus gallus domesticus), (Cairina moschata domesticus) and Domestic geese (Anser anser domesticus). No other species of poultry shall be permitted.
- (3) Hens shall only be permitted in One Family zoning districts as follows: Goose hens shall only be permitted in the R-30 and R-A zones.
 - R-5; R-7.5; R-10; R-12.5, SFA-10: No more than 5 hens.
 - R-18: R-30: R-A: No more than 10 hens.
- (4) A scaled Plot Plan showing the poultry enclosure and building shall be required. The use shall be confined to a fenced enclosure no greater than 20% of the lot area and located in a rear yard. In the case of a through-lot the enclosure shall not be within the front yard setback. The fenced enclosure shall be at least 25 feet from any street line, at least 10 feet from the principal residential dwelling and at least 5 feet from any property line.
- (5) Any portion of the enclosure located closer than ten feet to a property boundary shall be screened by either a solid fence or a landscaped buffer of at least four feet in height.

- (6) A building shall be required for the hens. Any building used for this purpose shall be no higher than 15 feet and located at least 5 feet from any lot line. All such buildings shall be constructed, and all food products kept, so as to prevent offensive odors and the presence of pests and predators.
- (7) No hens may be kept inside the principal residential structure.
- (8) No male poultry, castrated or not, shall be kept on any property.
- (9) The keeping of hers shall be conducted in a manner consistent with and in compliance with the Health Code of the City of Millord.
- (10) All poultry products including, but not limited to, eggs, feathers, and meat, shall not be sold to the public.

SUBMITTED to JVR by Chair Sayers for consideration on 6/21/23.

215 A Keeping of Backyard Poultry:

Definition of Poultry: The term "poultry" shall be defined as it is in CGS §22-326(s) (5), as amended.

- a. **Applicability:** This regulation is intended to make provision for the limited keeping of female chickens, henceforth referred to as hens, on certain residential properties for the health, convenience and personal enjoyment benefits afforded by such use, in a manner which preserves the quality of life of the surrounding neighborhood.
- b. **Permitted Uses:** No more than six (6) hens may be kept on any property located in the following residence zoning districts as a non-commercial accessory use: Residence AA, and A and Residence B. provided the property is a single family residence.
- c. Minimum Lot Size: A property must be greater than or equal to 20,000 square feet in order to keep backyard hens.
- d. Number of Poultry: A property which meets the minimum lot size may keep up to a maximum of six backyard hens.
- e. **Roosters:** Roosters are not permitted on property which has less than 2 acres.
- f. **Management:** Backyard hens shall be suitably contained on the premises at all times. Free range backyard hens are prohibited.
- g. Setbacks and Permitting Requirements:
- h. Structures less than two hundred square feet and enclosures (such as fenced areas) for the keeping of backyard hens shall be a minimum of twenty-five (25) feet from the side and rear property lines and seventy-five feet from the front property line or meet the setbacks of the underlying zone (whichever is greater). These structures and enclosures shall not require a Zoning Permit, but all owners of backyard hens shall submit a completed Backyard Poultry Compliance form to the Zoning Enforcement Officer certifying compliance to these regulations.
 - a. <u>ii. Any structure for the keeping of backyard hens that is greater than two hundred square feet shall require a permit in accordance with Section 1103C, as applicable.</u>
- i. Waste Management: The storage and management of waste (e.g., a combination of manure and bedding) for backyard hens shall be in accordance with the Public Health Code, Section 19-13-B1 (c) and 19-13-B1 (g) as amended. In no case shall waste be located closer to property lines than the minimum setback requirements for structures and enclosures for the keeping of backyard hens and shall not exceed two cubic yards at any given time.
- j. **Site Suitability and Impact:** In order to minimize potential adverse impacts, the following shall apply:
 - i. Sites with slopes greater than 15% shall be avoided or improved to avoid heavy surface water runoff, soil erosion, sedimentation, or hazardous conditions for keeping backyard hens.
 - ii. Structures for the keeping of backyard hens shall not be permitted directly over land containing an on-site sewage disposal system. Structures and enclosures (such as fenced areas) shall not be permitted directly over wells.
- iii. Proper drainage shall be provided to avoid the collection of water. Water shall be diverted from hens keeping areas; however, such water shall not pollute surface or subsurface water supplies, nor shall runoff be directed to neighboring properties.

- iv. A building shall be required for the hens. Any building used for this purpose shall be located at least twenty-five (25) feet from any lot line. All such buildings shall be constructed, and all food products kept so as to prevent offensive odors and the presence of pests and predators.
- v. The enclosure located within sight of a property boundary or directly visible from a street line shall be screened by either a fence or a landscaped buffer of at least four feet in height.

Backyard Poultry Compliance Form

WINDSOR LOCKS PLANNING DEPARTMENT — 50 CHURCH STREET — 860-627-1447 The purpose of this form is to ensure that those that wish to keep backyard poultry are aware of the requirements within the Windsor Locks Planning & Zoning Regulations. Contact information and flock information is collected at the recommendation of the Connecticut Department of Agriculture. Name: Site Address: _____Email:_____ 1. What is the size of your property? The property must be greater than 20, 000 square feet. 2. How many backyard hens do you plan to have, and what breed of poultry are they? Please be specific (i.e., 6 Rhode Island Reds). The maximum number of backyard poultry is eight (8). 3. Will you have any roosters? Roosters are not permitted on property which is less than 3 acres. 4. How big will the structure(s) be for the keeping of the backyard poultry? Structures greater than two Hundred (200) square feet require a permit. 5. How far will the structures and enclosures be from the property lines? Structures and enclosures (such as fenced areas) shall be a minimum of twenty (20) feet from the side and rear property lines and seventy-five (75) feet from the front property line or meet the setbacks of the underlying zone (whichever is greater). 6. Where will waste (e.g., a combination of manure and bedding) be located? Waste shall not be located closer to proper lines than the minimum setback requirements for structures and enclosures and shall not exceed two (2) cubic yards at any given time. 7. Please review Site Suitability and Impact on the Planning & Zoning regulations for the Keeping of Backyard Hens. Will your management plan meet these requirements? 8. A sketch showing the location of poultry-keeping areas is required on a site plan of your property. Please contact the Windsor Locks Planning Department if you need assistance. By signing this form. you certify that you have read the regulations and understand the requirements. Signature:

Windsor Locks Planning Department — 50 Church Street — 860-627-1447

Excerpt from Section 215 A —Keeping of Backyard Hens from the Windsor Locks Zoning Regulations

215 A Keeping of Backyard Poultry:

- k. **Applicability:** This regulation is intended to make provision for the limited keeping of female chickens, henceforth referred to as hens, on certain residential properties for the health, convenience and personal enjoyment benefits afforded by such use, in a manner which preserves the quality of life of the surrounding neighborhood.
- 1. **Permitted Uses:** No more than six (6) hens may be kept on any property located in the following residence zoning districts as a non-commercial accessory use: Residence AA, and A and Residence B. provided the property is a single family residence.
- m. Minimum Lot Size: A property must be greater than or equal to 20,000 square feet in order to keep backyard hens.
- n. Number of Poultry: A property which meets the minimum lot size may keep up to a maximum of six backyard hens.
- o. **Roosters:** Roosters are not permitted on property which has less than 2 acres.
- p. **Management:** Backyard hens shall be suitably contained on the premises at all times. Free range backyard hens are prohibited.
- q. Setbacks and Permitting Requirements:
- r. Structures less than two hundred square feet and enclosures (such as fenced areas) for the keeping of backyard hens shall be a minimum of twenty-five (25) feet from the side and rear property lines and seventy-five feet from the front property line or meet the setbacks of the underlying zone (whichever is greater). These structures and enclosures shall not require a Zoning Permit, but all owners of backyard hens shall submit a completed Backyard Poultry Compliance form to the Zoning Enforcement Officer certifying compliance to these regulations.
 - a. <u>ii. Any structure for the keeping of backyard hens that is greater than two hundred square feet shall</u> require a permit in accordance with Section 1103C, as applicable.
- s. Waste Management: The storage and management of waste (e.g., a combination of manure and bedding) for backyard hens shall be in accordance with the Public Health Code, Section 19-13-B1 (c) and 19-13-B1 (g) as amended. In no case shall waste be located closer to property lines than the minimum setback requirements for structures and enclosures for the keeping of backyard hens and shall not exceed two cubic yards at any given time.
- t. Site Suitability and Impact: In order to minimize potential adverse impacts, the following shall apply:
 - vi. Sites with slopes greater than 15% shall be avoided or improved to avoid heavy surface water runoff, soil erosion, sedimentation, or hazardous conditions for keeping backyard hens.
- vii. Structures for the keeping of backyard hens shall not be permitted directly over land containing an onsite sewage disposal system. Structures and enclosures (such as fenced areas) shall not be permitted directly over wells.
- viii. Proper drainage shall be provided to avoid the collection of water. Water shall be diverted from hens keeping areas; however, such water shall not pollute surface or subsurface water supplies, nor shall runoff be directed to neighboring properties.
- ix. A building shall be required for the hens. Any building used for this purpose shall be located at least twenty-five (25) feet from any lot line. All such buildings shall be constructed, and all food products kept so as to prevent offensive odors and the presence of pests and predators.
- x. The enclosure located within sight of a property boundary or directly visible from a street line shall be screened by either a fence or a landscaped buffer of at least four feet in height.

215 Livestock for Domestic Use.

- A. In residential zones, livestock for domestic use or home consumption but not for sale may be kept on any lot containing more than two acres in area, provided that no building housing such animals is located nearer than 100 feet to any street or property line, and provided further that no more than one horse or cow, or two goats or sheep, may be kept per acre of lot area.
- B. Poultry or rabbits, or similar small animals, for domestic use only and not for sale in Residence

 AA, Residence A and Residence B, are permitted in a building or enclosure, not less than 25 feet

 from side or rear any property line, and 75 feet from the street line. Roosters are prohibited

 from being kept in residential zones.
 - a. All poultry, rabbits and small animals are to be kept in a building or enclosure and may not be allowed to roam onto other properties.
 - b. All such buildings or enclosures shall be constructed, and all food products kept, in a way that prevents offensive odors and discourages pests and predators.
 - c. No more than eight (8) small animals may be kept on any property.
 - d. Buildings of two hundred (200) square feet or less shall not require a Zoning Permit.
 - e. Buildings greater than two hundred (200) square feet require a Zoning Permit.
 - f. Animal buildings and enclosures shall be screened from all property lines by a fence, house, garage (or other non-animal related enclosure) or dense landscaped buffer of at least four feet in height.
 - g. Backyard Poultry Compliance Form. All owners of backyard poultry shall submit a completed Backyard Poultry Compliance Form to the Zoning Enforcement Officer certifying compliance to these regulations prior to the keeping of backyard poultry and prior to locating a related building or enclosure on the property.
- C. Waste Management: To minimize potential adverse impacts, the storage and management of waste (animal waste, bedding) for backyard animals shall be in accordance with any public health, agricultural codes, and best practices of the State of Connecticut, as amended. In no case shall such waste be located closer than the setbacks required in subsection B. of this section and such waste shall not exceed one cubic yard at any given time. Waste shall be kept in a way that prevents offensive odors.
- D. Site Suitability and Impact: To minimize potential adverse drainage impacts, the following shall apply:
 - a. Sites with slopes greater than 15% shall be avoided or improved to avoid heavy surface water runoff, soil erosion, sedimentation, or hazardous conditions for keeping backyard animals.
 - Structures and enclosures (including pens or chicken runs) for the keeping of small animals shall not be permitted directly over on-site sewage disposal systems or over wells.
 - c. Proper drainage shall be provided to manage stormwater, avoid the collection of water and avoid the diversion of water onto neighboring properties.

Backyard Poultry Compliance Form

Windsor Locks Building and Land Use Department — 50 CHURCH STREET — 860-627-1447 The purpose of this form is to ensure that those that wish to keep backyard poultry are aware of the requirements within the Windsor Locks Zoning Regulations. Contact information and flock information is collected at the recommendation of the Connecticut Department of Agriculture. Name: Site Address: Phone:_ _Email: 1. How many animals do you plan to have, and what breed of poultry are they? Please be specific (i.e., 6 Rhode Island Reds). The maximum number of backyard poultry is eight (8). 2. Will you have any roosters? Roosters are not permitted on property which is less than 3 acres. 3. How big will the structure(s) be for the keeping of the backyard poultry? Structures greater than two Hundred (200) square feet require a permit. 4. How far will the structures and enclosures be from the property lines? Structures and enclosures (such as fenced areas) shall be a minimum of twenty-five (25) (20) feet from the side and rear property lines and seventy-five (75) feet from the front property line. or meet the setbacks of the underlying zone (whichever is greater). 5. Where will waste (for example, manure and bedding) be located? Waste shall not be located closer to proper lines than the minimum setback requirements for structures and enclosures and shall not exceed one (1) cubic yard at any given time. 6. Please review Site Suitability and Impact in the Zoning Regulations for the keeping of backyard poultry. Will your management plan meet these requirements? 7. A sketch showing the location of poultry-keeping areas is required on a site plan of your property. Please contact the Windsor Locks Building and Land Use Planning Department if you need assistance.

By signing this form, you certify that you have read the regulations and understand the requirements.

Jen here is the report showing all residential properties in town that are over 20,000 sqft or .46 acres.

It looks like there are about 909.

If you have any questions please let us know.

Thank you,

RE: Section 215 Text Amendment Request

Date: June 10, 2023, revised July 3, 2023

Applicant, MaryAnn Moskey, has submitted a text amendment request to reduce the yard requirements for enclosures for poultry or rabbits, or similar small animals, for domestic use only and not for sale from 100 feet from all property lines to 25 feet to rear and side yards and 75 feet from the street line (front property line). The proposal also adds that roosters would be prohibited and such animals are to be enclosed and not allowed to roam onto adjacent properties. The applicant has also added a purpose statement and two clarifying definitions.

At the June meeting, residents shared both support and concerns. The Commission provided some comments as well and Chair Sayers created an amended draft regulation for circulation. We've had a chance to review various regulations from Connecticut towns, both urban, rural and in between. I've also had a chance to review the CRCDA Zoning Regulations for Livestock: Best Practices Guidance Book (see pages 25 and 26) https://portal.ct.gov/-/media/DOAG/Commish and Gov/LivestockGuidanceBookWEB-002-

<u>FINAL.pdf?la=en&hash=FF66DA6F8B35C6507814EDBC059876E9</u> which includes model regulations from various towns as well as things to consider when creating a local policy such as this one. I've reviewed all the above and created an additional revision which is attached here for your review.

Here is a summary of the changes or additions since the June meeting and are good points for discussion:

- 1. formatted the section into A E
- 2. added the single-family residential zones in which small animals would be permitted
- 3. require construction that reduces odor and discourages pests and predators
- 4. no more than 8 small animals (this was not specified before, Chair Sayers recommended 6, but the form proposed said 8)
- 5. clarifies what size structures require a permit and which do not (mimics building code)
- 6. adds required screening
- 7. adds language about waste management
- 8. adds language about site suitability and drainage
- 9. adds requirement of compliance form / certification

CONNECTICUT GENERAL STATUTES 8-3(b), REGULATION CHANGES and POCD:

CGS 8-3(b), "Such regulations and boundaries shall be established, changed, or repealed only by a <u>majority vote of all the members</u> of the zoning commission, except as otherwise provided in this chapter. In making its decision the commission <u>shall take into consideration the plan of conservation and development</u>, prepared pursuant to section 8-23, and <u>shall state on the record its findings on consistency of the proposed establishment</u>, change or repeal of such regulations and boundaries with such plan."

CAPITOL REGION COUNCIL OF GOVERNMENTS: This office is in receipt of a letter which can be read into the record. No conflicts were reported.

After the close of the public hearing, the Commission will want to deliberate, consider the chart submitted by the applicant related to setbacks found in other communities and all other information submitted by staff, as well as testimony, concerns, and support by the public.

Motion for Consideration, written in the affirmative:

MOTION to approve the regulation amendment of Section 215 as presented on July 10, 2023.

<u>Purpose for Consideration:</u> to provide clarification to this section of the regulations, make accommodation for residential food production, acknowledge the keeping of small animals as a generally accepted backyard agricultural practice, reflect a growing preference for locally grown, healthier food, encourage sustainable community practice, provide a solution for mid to low-income households for whom food resources can be a chronic issue

215 Livestock for Domestic Use.

- A. In residential zones, livestock for domestic use or home consumption but not for sale may be kept on any lot containing more than two acres in area, provided that no building housing such animals is located nearer than 100 feet to any street or property line and provided further that no more than one horse or cow, or two goats or sheep, may be kept per acre of lot area.
- B. Poultry or rabbits, or similar small animals, for domestic use only and not for sale in Residence AA, Residence A and Residence B, are permitted in a building or enclosure, not less than 100-25 feet from side or rear any property line, and 75 feet from the or street line. Roosters are prohibited from being kept in residential zones.
 - a. All poultry, rabbits and small animals are to be kept in a building or enclosure and may not be allowed to roam onto other properties.
 - b. All such buildings or enclosures shall be constructed, and all food products kept, in a way that prevents offensive odors and discourages pests and predators.
 - c. No more than eight (8) small animals may be kept on any property.
 - d. Buildings of two hundred (200) square feet or less shall not require a Zoning Permit.
 - e. Buildings greater than two hundred (200) square feet require a Zoning Permit.
 - f. Animal buildings and enclosures shall be screened from all property lines by a fence, house, garage (or other non-animal related enclosure) or dense landscaped buffer of at least four feet in height.
 - g. Backyard Poultry Compliance Form. All owners of backyard poultry shall submit a completed Backyard Poultry Compliance Form to the Zoning Enforcement Officer certifying compliance to these regulations prior to the keeping of backyard poultry and prior to locating a related building or enclosure on the property.
- C. Waste Management: To minimize potential adverse impacts, the storage and management of waste (animal waste, bedding) for backyard animals shall be in accordance with any public health, agricultural codes, and best practices of the State of Connecticut, as amended. In no case shall such waste be located closer than the setbacks required in subsection B. of this section and such waste shall not exceed one cubic yard at any given time. Waste shall be kept in a way that prevents offensive odors.
- D. Site Suitability and Impact: To minimize potential adverse drainage impacts, the following shall apply:
 - a. Sites with slopes greater than 15% shall be avoided or improved to avoid heavy surface water runoff, soil erosion, sedimentation, or hazardous conditions for keeping backyard animals.
 - b. Structures and enclosures (including pens or chicken runs) for the keeping of small animals shall not be permitted directly over on-site sewage disposal systems or over wells.
 - a.c. Proper drainage shall be provided to manage stormwater, avoid the collection of water and avoid the diversion of water onto neighboring properties.
- E. Enforcement: The Zoning Enforcement Officer may engage various colleagues, agencies, and consultants, such as the Building Official, Engineering Consultant, Health Department, Department of Agriculture and Animal Control to ensure and determine compliance with the above and may enforce matters of non-compliance in accordance with these Windsor Locks Zoning Regulations, Ordinances, and the Connecticut General Statutes, as may be amended.

Backyard Poultry Compliance Form – DRAFT REVISED July 3, 2023

Windsor Locks Building and Land Use Department — 50 CHURCH STREET — 860-627-1447

The purpose of this form is to ensure that those that wish to keep backyard poultry are aware of the requirements within the Windsor Locks Zoning Regulations. Contact information and flock information is collected at the recommendation of the Connecticut Department of Agriculture.

<u>Na</u>	me:
Site	e Address:
<u>Ph</u>	one:Email:
<u>1.</u>	How many animals do you plan to have, and what breed of poultry are they? Please be specific (i.e., 6 Rhode Island Reds). The maximum number of backyard poultry is eight (8).
<u>2.</u>	Will you have any roosters? Roosters are not permitted on property which is less than 3 acres.
<u>3.</u>	How big will the structure(s) be for the keeping of the backyard poultry? Structures greater than two Hundred (200) square feet require a permit.
<u>4.</u>	How far will the structures and enclosures be from the property lines? Structures and enclosures (such as fenced areas) shall be a minimum of twenty-five (25) (20)-feet from the side and rear property lines and seventy-five (75) feet from the front property line. or meet the setbacks of the underlying zone (whichever is greater).
<u>5.</u>	Where will waste (for example, manure and bedding) be located? Waste shall not be located closer to proper lines than the minimum setback requirements for structures and enclosures and shall not exceed one (1) cubic yard at any given time.
<u>6.</u>	Please review Site Suitability and Impact in the Zoning Regulations for the keeping of backyard poultry. Will your management plan meet these requirements?
<u>7.</u>	A sketch showing the location of poultry-keeping areas is required on a site plan of your property. Please contact the Windsor Locks Building and Land Use Planning Department if you need assistance.
Ву	signing this form. you certify that you have read the regulations and understand the requirements.

Sent: Thursday, June 22, 2023 11:13 AM To: Jen Valentino < JValentino@wlocks.com > Subject: Zoning meeting slated for July

My name is Linda Trimble, I live at 432 Reed Ave and due to health issues, I will be unable to attend the July zoning meeting that is going to address the zoning change request regarding residents being allowed to raise chickens on the average lot size in town. I want my voice heard that I am very much in favor of this zone request. Chickens do no harm and in fact are good for the environment. Those that raise chickens are very responsible owners who care about the welfare of their chickens and their care. It's simply these antiquated zoning laws that need to be addressed and changed. Please do so. Thankyou for your consideration..Sincerely, Linda Trimble Sent from my iPad

HINARITY PAVILIES AND FLOCKS

Backyard poultry, such as chicken, ducks, geese, and turkeys, often carry harmful germs. You can get sick from touching your backyard poultry or anything in their environment and then touching your mouth or food and swallowing the germs.

HANDLE BIRDS SAFELY

- Always wash your hands with soap and water right after touching backyard poultry or anything in the area where they live and roam.
- · Use hand sanitizer if soap and water are not readily available.
- · Adults should supervise handwashing for young children.
- Do not snuggle or kiss the birds, touch your mouth, or eat or drink around backyard poultry.
- Children younger than 5 years old, people with weakened immune systems, and people 65 years of age and older are at more risk for serious illness caused by diseases spread between poultry and people.

SAFELY CLEAN COOPS

- Clean poultry equipment and supplies outside. This includes cages, feed or water containers, and anything used to care for the poultry.
- Set aside a pair of shoes to wear while taking care of poultry and keep those shoes outside of the house.

POULTRY BELONG OUTSIDE

- Do not let backyard poultry inside the house, especially in kitchens.
- Do not let backyard poultry in areas where food or drink is prepared, served, or stored.
- Do not bring chicks, ducklings, and other backyard poultry to schools, childcare centers, or nursing homes,

Applicant, MaryAnn Moskey, has submitted a text amendment request to reduce the yard requirements for enclosures for poulitry or rabbits, or similar small animals, for domestic use only and not for sale from 100 feet from all property lines to 25 feet to rear and side yards and 75 feet from the street line (front property line). The proposal also adds that roosters would be prohibited and such animals are to be enclosed and not allowed to roam onto adjacent properties. The applicant has also added a purpose statement and two clarifying definitions.

At the June meeting, residents shared both support and concerns. The Commission provided some comments as well and Chair Sayers created an amended draft regulation for circulation. We've had a chance to review various regulations from Connecticut towns, both urban, rural and in between, I've also had a chance to review the CRCDA Zoning Regulations for Livestock: Best Practices Guidance Book (see pages 25 and 26) https://portal.ct.gov/-/media/DOAG/Commish_and_Gov/LivestockGuidanceBookWEB-002-

FINAL pdf Na=en&hash=FF66DA6F883SC6S07814EDBC059876E9 which includes model regulations from various towns as well as things to consider when creating a local policy such as this one. I've reviewed all the above and created an additional revision which is attached here for your review.

Here is a summary of the changes or additions since the June meeting and are good points for discussion:

- 1. formatted the section into A E
- 2. added the single-family residential zones in which small animals would be permitted
- 3. require construction that reduces odor and discourages pests and predators
- no more than 8 small animals (this was not specified before, Chair Sayers recommended 6, but the form proposed said 8)
- 5. clarifies what size structures require a permit and which do not (mimics building code)
- 6. adds required screening
- adds language about waste management
- 8. adds language about site suitability and drainage
- adds requirement of compliance form / certification

CONNECTICUT GENERAL STATUTES 8-3(b), REGULATION CHANGES and POCD:

CGS 8-3(b), "Such regulations and boundaries shall be established, changed, or repealed only by a majority vote of all the members of the zoning commission, except as otherwise provided in this chapter. In making its decision the commission shall take into consideration the plan of conservation and development, prepared pursuant to section 8-23, and shall state on the record its findings on consistency of the proposed establishment, change or repeal of such regulations and boundaries with such plan."

CAPITOL REGION COUNCIL OF GOVERNMENTS: This office is in receipt of a letter which can be read into the record. No conflicts were reported.

After the close of the public hearing, the Commission will want to deliberate, consider the chart submitted by the applicant related to setbacks found in other communities and all other information submitted by staff, as well as testimony, concerns, and support by the public.

Motion for Consideration, written in the affirmative:

MOTION to approve the regulation amendment of Section 215 as presented on July 10, 2023.

Purpose for Consideration: to provide clarification to this section of the regulations, make accommodation for residential food production, acknowledge the keeping of small animals as a generally accepted backyard agricultural practice, reflect a growing preference for locally grown, healthier food, encourage suscensive community practice, provide a solution for mid to low-income households for whom food resources can be a chronic issue.

20,000 SF ∠ ,46 res. 3008 ≥ .46 res 909

DRAFT Submitted by JVR July 3, 2023

215 Livestock for Domestic Use.

- A In residential zones, livestock for domestic use or home consumption but not for sale may be kept on any lot containing more than two acres in area, provided that no building housing such animals is located nearer than 100 feet to any street or property line and provided further that no more than one horse or cow, or two goats or sheep, may be kept per acre of lot area.
- Poultry or rabbits, or similar small animals, for domestic use only and not for sale in flexidence AA, Residence A and Residence B, are permitted in a building or enclosure, not less than 190-25 feet from side or rear any of property line, and 75 feet from the or street line. Roosters are prohibited from being kept in residential zones.
 - a. All poultry, rabbits and small animals are to be kept in a building or enclosure and may not be allowed to roam onto other properties.
 - All such buildings or enclosures shall be constructed, and all food products light, in a way that prevents offensive odors and discourages pests and predators.

 2.4.2
 - No more than eight (8) small animals may be kept on any property.
 - d. Buildings of two hundred (200) square feet or less shall not require a Zoning Permit.
 - e. Buildings greater than two hundred (200) square feet require a Zoning Bermit.
 - Animal buildings and enclosures shall be screened from all property lines by a fence, house, garage for other non-animal related enclosure) or dense landscaped buffer of at least four feet in height.
 - Bischward Poultry Compliance Firm, All owners of partitions poultry shall submit a completed Sackyard Poultry Compliance Form to the Zoning Enforcement Officer certifying compliance to these subulations prior to the keeping of backward poultry and prior to locating a related building or enclosure on the property.
- C. Waste Management. To minimize potential adverse imports, the storage and management of waste (animal waste, cedding) for backyard animals shall be in accordance with any public health, agricultural codes, and best practices of the State of Connecticut, as amended. In no case shall such waste be located closer than the setbacks required in subsection 8, of this section and such waste shall not exceed one cubic yard at any given time. Waste shall be kept in a way that prevents offensive odors.
- D. Site Suitability and Impact. To inhamize potential adverse drainage impacts, the following shall apply.
 - a Sites with slopes greater than 15% shall be avoided or improved to avoid heavy surface water runoff, soil erosion, sedimentation, or hazardous conditions for keeping backyard animals.
 - Structures and enclosures (including piers or chicken runs) for the keeping of small animals shall not be permitted directly over on-site sawage disposal systems or over wells.
 - a.c. Proper drainage shall be provided to manage stormwater, avoid the collection of water and avoid the diversion of water onto neighboring properties.
- Enforcement: The Zoning Enforcement Officer may engage various colleagues, agencies, and consultants, such as the Building Official, Engineering Consultant, Health Department, Department of Agriculture and Animal Control to ensure and determine compliance with the above and may enforce matters of non-compliance in accordance with these Windsor Locks Zoning Regulations, Ordinances, and the Connecticut General Statutes, as may be amended.

Could be this be loased on streety!

Backyard Poultry Compliance Form - DRAFT REVISED July 3, 2023

	Windsor Locks Building and Land Use Department — 50 CHURCH STREET — 860-627-1447
Th	in purpose of this form is to ensure that those that wish to keep backyard poultry are aware of the requirements
991	thin the Windsor Locks Zonina Regulations. Contact information and flock information is collected at the
120	epmmendation of the Connecticut Department of Agriculture:
Na	PH/C
3/1	n Address:
	NAME OF THE PARTY
Ph	one Imuit
1	How many animals do you plan to have, and what breed of poultry are they? Please be specific (i.e., 6 Rhode Island Reds). The maximum number of backyard poultry is eight (iii).
2	Will you have any registers? Registers are not granified an empergy which it less than 3 acres.
1	How big will the structure(s) be for the keeping of the backgard poultry? Structures greater than two Hundred (200) square feet require a permit.
4	Have far will the structures and enclosures be from the grounty lines? Structures and enclosures (such as fenced areas) shall be a minimum of twenty-five (25) (20) feet from the side and rear property lines and seventy-five (25) feet from the front property line or meet the setbuchs of the underlying sons (whichever is property).
5	Where will write [for example, manure and bedding] be located? Waste shall not be located closer to proper line; than the minimum setback requirements for structures and enclosures and shall not exceed one [1] cubic yard at any given time.
6.	Please review Site Suitability and Impact in the Zoning Regulations for the keeping of backgard poultry. Will your management plan meet these requirements?
Ž.	A sketch showing the location of poultry-keeping areas is required on a site plan of your property. Please contact the Windson Locks Building and Land Use Planning Department if you need assistance.
By	second this form, you certify that you have read the regulations and understand the requirements.
516	inaltare:

To the Windsor Locks Town Hall committee,

I am writing to express my dismay and disappointment at the biased and inaccurate article published in the Journal Inquirer titled "Windsor Locks faces growing pains as it plans for future development". The article reported on a recent town half meeting where two topics were on the agenda: a proposed new policy on the keeping of chickens and a presentation of plans for a new warehouse on Old County Road.

The article claimed that the presentation on the warehouse plan was "interrupted by an unruly crowd gathered to debate a proposed new policy on the keeping of chickens" and that "the town fire marshal interrupted a technical discussion on the warehouse plan to stop the meeting as dozens of poultry mad residents crowded the meeting room in excess of a 150-person capacity."

These statements are false and defamatory to the character of the families who attended the meeting in support of micro-chicken farming. The meeting was planned for the chicken zoning issue as it was announced throughout the town forums. Members of the new warehouse committee proposed that we speak first due to the large number of people there for the chicken zoning issue. We agreed to this proposal, despite that we were made to wait.

Moreover, we were subjected to many inconveniences and indignities during the meeting. The air conditioning was shut off, making the room unbearably hot and stuffy. To my knowledge, no filming took place to provide an actual record of the meeting. The microphones were not loud enough to hear from the back of the room. We were passed over and made to wait over two hours in adjacent rooms, all for the benefit of getting a new warehouse that is proposing \$2 million in tax revenue to the town. The town council put money before the tax-paying town folk.

The uproar started when one of the town council members fied to the fire marshal in front of dozens of witnesses, stating that "The warehouse committee did not offer for the chicken owners to go first in the meeting." This was a blatant falsehood, as we have witnesses who can attest that they did. One of the parents earlier pleaded that our group goes first because while his children were there to support the chicken farming, they had not yet eaten that evening. We were all ignored, and our points of view dismissed till 10:20pm or so.

Having no problem with the "growing pains" of the town by expanding for commercial interest it must also consider the locals; who also put up with the added noises by the traffic of people, commercial trucks, and motor vehicles.

Speaking for those concerned, we demand that the town print a retraction of the false statements "interrupted by an unruly crowd" and "poultry-mad residents" that appeared in the biased article. These statements are insulting and demeaning to us as responsible and respectful citizens who care about our environment, our economy, and our community. We also demand that the town council applicate for their mistreatment of us and their disregard for our safety. We also request that a new meeting be scheduled with proper facilities, recording, and respect for all parties involved.

We hope that you will correct your article and report the truth about what happened at the town hall meeting. We also hope that you will cover our side of the story and give us a fair chance to voice our opinions and concerns. Micro-chicken farming is not a trivial or crazy idea. It is a viable and beneficial way of living that has been proven by scientific evidence and personal experience.

About the Chickens, as a micro chicken farmer/gardener and a concerned citizen of Windsor Locks. I would like to urge you to support and encourage small-scale poultry production in our town, as it has many benefits for the environment, the economy, and the community. Sustainability should be encouraged for growth not hindered.

As you may know, chickens are amazing creatures that can turn food scraps, yard waste, and insects into highquality eggs and meat. They also provide natural fertilizer for gardens and lawns and help control pests and weeds. By keeping a dozen chickens in my backyard, I have been able to compost an average of 5 lbs. of food scraps per day and a ton and a half of leaves per year. That means I divert 1,825 lbs. of food waste and 3,000 lbs. of leaves from the landfill every year. For the town, what does this savings add up to with the people who micro farm and compost? My garden soil has transformed from sandy soil, devoid of earthworms, to a rich brown topsoil full of varieties of earthworms. My compost provides a food source for chickens to save on feed costs. Chickens also eat grubs and harmful garden pests including mice!

My experience is not unique. In fact, there is scientific evidence that having chickens reduces food waste and improves soil health. A city in Belgium conducted a social experiment where they gave three chickens per household to anyone who wanted them. Roughly 2,000 families participated in this homesteading experiment and adopted the chickens under the conditions that they would not kill or give away the chickens for the first two years. As a result, these chickens helped reduce 100 tons of food waste from entering the landfills every month since the chickens would practically eat any kitchen food scraps that were given to them. Additionally, these chickens and hens provided fresh eggs to the families that cared for them.

Joel Salatin, America's most celebrated pioneer of chemical-free farming and the world's most innovative farmer, has also demonstrated the benefits of small-scale poultry production. He runs Polyface Farm in Virginia's Shenandoah Valley, where he uses a multi-species rotational grazing technique that churns out high-quality food while also building fertile soil. He moves his chickens around the pasture in portable pens, where they scratch up the cow manure, eat the fly larvae, and fertilize the grass. He calls this system "salad bar beef" because it mimics the natural symbiosis between herbivores and birds in nature. He also raises pastured broilers and turkeys using similar methods. He claims that his system produces more food per acre than conventional industrial farms, while also sequestering carbon, conserving water, and enhancing biodiversity.

Not only is micro chicken farming good for the environment, but it is also good for the economy and the community. By raising my own chickens, I have been able to save money on eggs and meat, as well as on fertilizer and pest control. I have also been able to offer my surplus eggs to my neighbors and friends, creating a local food network that strengthens social bonds and supports local businesses. I have also learned valuable skills and gained satisfaction from producing my own food.

Micro chicken farming is not a new or radical idea. It is a traditional and sustainable way of living that has been practiced for centuries by people around the world. It is compatible with urban and suburban lifestyles, as long as there are reasonable regulations on noise, odor, sanitation, and animal welfare. It is also compatible with our town's values of self-reliance in farming, innovation, and community spirit.

Additionally, Noise is one of the common concerns that people have about keeping chickens in towns. However, chickens are not as noisy as some people may think. In fact, chickens are quieter than dogs, which are widely accepted as pets in urban areas.

According to several sources (1), hens typically peak around **60-70 decibels** (approximately the same as a human conversation) and roosters around **90 decibels** (similar to a barking dog). However, hens only make loud noises when they lay an egg, which lasts for a few minutes, and roosters only crow at dawn or when they sense danger. Most of the time, chickens make soft clucking sounds that are barely audible from a distance.

On the other hand, dogs can bark at any time of the day or night, for various reasons such as excitement, boredom, anxiety, or aggression. Dogs can also howl, whine, or growl, which can be annoying or disturbing to neighbors. According to the American Kennel Club*, some of the loudest dog breeds are Beagles, German Shepherds, Siberian Huskies, and Yorkshire Terriers, which can reach up to **130 decibels** or more.

Therefore, chickens are not a significant source of noise pollution in towns. In fact, they can be quieter than dogs and other common pets. As long as chickens are kept in a secure and comfortable coop with adequate space, food, water, and ventilation, they will not cause much disturbance to the neighborhood.

- (5) Do hens make a lot of noise? Thank Chickens. https://thankchickens.com/do-hens-make-a-lot-of-noise/.

In conclusion, I respectfully ask the board to consider the following actions:

I strongly <u>oppose</u> a ban on chickens in our town, as I believe they are beneficial for many reasons. However, I agree that chicken owners should prevent their chickens from trespassing on other people's properties. This is disrespectful and potentially costly for both the property owners.

- First consideration, sometimes animals of all kinds escape the confines of a backyard; dogs included. For repeated offences including a neighbor's complaint, I suggest a fine for those who neglect their fowl and let them wander onto other people's properties. We should also require chicken owners to keep their chickens in a secure fenced in back yard with a comfortable coop or require a run for those who do not have a fenced in yard.
- We should also allow chicken owners to extend their "property line requirements" with signed consent by their neighboring property owners. This would extend the distance from the property line and foster cooperation among neighbors supporting micro-farming. Also considering adjacent to busy roads and commercial properties.
- Allow residents to keep up to 12-16 hens per household in any zoning district, as long as the property is fenced in,
 or the chickens are penned/fenced in with proper shelter. This will allow residents to rotate out older chickens that
 produce less eggs.
- Provide educational resources and workshops on how to raise chickens safely and humanely.
- Encourage local schools, libraries, community gardens, and farmers' markets to incorporate chickens into their programs and activities.
- Recognize micro chicken farmers as valuable contributors to our town's environmental stewardship, economic resilience, and social cohesion.

I hope you will support these suggestions, which I believe will balance the rights and interests of all parties involved and promote a harmonious and sustainable way of living in our town.

Thank you for your time and attention. I hope you will join me in supporting micro chicken farming in Windsor Locks.

Sincerely all rights reserved without prejudice, Matthew John; Loncar

215 Livestock for Damestic Use.

- A. In residential zones, livestock for domestic use or home consumption, but not for sale may be kept on any lot containing more than 2 acres in area, provided that no building housing such animals is located nearer or than 100 feet to any street or property line, and provided further that no more than one horse or cow, or two goats or sheep, may be kept per acre of lot area.
 - B. Poultry or rabbits, or similar small animals, for domestic use only and not for sale in
 Residence AA, Residence A & Residence B, or permitted in building or enclosure, no less than
 5 feet from side or rear, any property line, and 40 feet from the street line.
 - A. All poultry, rabbits and small animals are to be kept in a building or enclosure, and may not be allowed to roam onto other properties.
 - B. All such buildings or enclosures shall be constructed, and all food products kept, in a way that prevents offensive orders and discourages pests and predators.
 - C. Buildings of 200 square feet or less, shall not require a zoning permit.
 - Buildings greater than 200 square feet require a zoning permit.
 - E. Animal buildings and enclosures shall be screened from all property lines by a fence, house, garage (or other non-animal related enclosure) or dense landscape buffer of at least 4 feet in height.

RE: Scannell Properties #698, LLC

Rezone Application

Old County Road/Route 20 (Parcel 1D 056-127-001)

Dear Chairperson Sayers and Members of the Planning and Zoning Commission:

This firm represents Scannell Properties #698, LLC ("Scannell Properties"), (the Applicant for the enclosed Application to amend the Zoning Map per Section 1105 of the Windsor Locks Zoning Regulations. The property involved in the Application is located on Old County Road/CT Route 20 (Parcel ID 056-127-001), consisting of about 76 acres of undeveloped land (the "property").

Please find enclosed the following materials in support of the Application:

- Application form (16 copies),
- 2. Application narrative (16 copies).
- Property Owner Authorization letter (16 copies).
- 4. Legal description of the property (16 copies).
- 5. Proposed Zoning Map Revision (5 prints, scale not more than!" -100").
- 6. Preliminary site plan (16 sets total).
- Preliminary Wetlands Resource Assessment (16 copies).
- Preliminary Assessment of potential impacts to Waterworks Brook. Conservation Area (16 copies)
- 9. Preliminary Traffic Impact assessment (16 copies).
- 10. Market Feasibility and Economic Impact Study (16 copies)
- 11. Application fee in the amount of \$360.00.
- 12. Thumb-drive with digital copies of application materials.

As explained in the attached Application Narrative, the subject property is currently located in the Town's Business Zone 1 ("B-1 Zone") and the Airport Interchange Overlay Zone ("AIOZ"). This application proposes to change the zoning designation of the Property from Business Zone 1 to Industrial Zone 1 ("I-1 Zone") and to remove the Property from the AIOZ overlay district.

We respectfully request that the Commission receive this Application at its next regularly scheduled meeting and schedule a public hearing as soon as possible. Thank you for your consideration of this matter.

Respectfully submitted

Explanation Regarding Zone Change Request Scannell Properties #698, LLC Application for Zone Change -- Old County Road, Windsor Locks, CT

Application Narrative

This Narrative is in support of the Application for Zone Change submitted by Scannell Properties #698, LLC ("Scannell Properties" or the "Applicant") for real property. located on Old County Road/CT Route 20 (Parcel ID 056-127-001) (the "Property"). The Application proposes rezoning the Property from the Business Zone 1 ("B-1 Zone") to Industrial Zone 1 ("the I-1 Zone). It is also proposes removing the Property from the Town's Airport Interchange Overlay Zone ("AIOZ"). The size of this undeveloped Property is about 76 acres.

This Application is intended to facilitate development at this long-vacant Property. If approved it will spur economic development by (a) generating significant additional real and personal property tax revenue, as well as one-time development permitting fee revenue; (b) creating many new construction jobs to build the facility; and (c) creating many permanent jobs and increased business for other local establishments.

The Application is intended to facilitate future applications for development of two high-end warehouse buildings (approximately I million sq. ft. and 150,000 sq. ft. respectively) at the Property (the "Project"). The proposed use is permitted in the I-I Zone with site plan approval, but is not currently permitted in the B-I Zone or the AIOZ overlay district. If approved, the Project would include an access drive from Old County Road, significant landscape buffers, and a robust sound wall to be installed on the north and eastern parts of the Property to minimize sound and provide visual acreening.

Changing the Property's zoning classification in this way will help to bring an underutilized property to its higher potential, benefiting the Town as a whole. Based on its proximity to Interstate 91 and CT Route 20, the Property is ideally situated for use as a high-end warehouse use. The Project is consistent with the I-1 Zone regulations, will be sensitive to nearby land uses, and will further the goals of the Town's Plan of Conservation and Development ("POCD").

Please be advised that we, O.J. Thrall, Inc, as owner, hereby authorize Scannell Properties #698, LLC and/or its authorized agents to file and present any land use and related permit applications associated with the development and use of our property located on Old County Road (Route 20) (Parcel ID 056-127-001) in Windsor Locks, Connecticut.

Sincerely,

O.J. THRALL, INC, a Connecticut Corporation

7

WETLAND RESOURCES

April 5, 2023

Scannell Properties #698, LLC 294 Grove Lane East, Suite 140 Wayzata, MN 55391

Re: Preliminary Wetland Resource Assessment

Old County Road, Windsor Locks, Connecticut

APT Job No: CT3611060

On behalf of Scannell Properties #698, LLC ("Scannell"), All-Points Technology Corporation, P.C. ("APT") performed a preliminary assessment of wetland resources present on the referenced property. This assessment is based on a review of a Preliminary Site Plan (Drawing No. CS100) prepared by Langan, dated April 5, 2023.

APT understands that Scannell proposes the construction of a warehouse facility (the "Facility") on the ± 76 -acre agricultural property located on the east side of Old County Road, north of State Route 20, in Windsor Locks, Connecticut (the "Site" or "Subject Property"). The Facility would be primarily located within the upland agricultural field that dominates the Subject Property.

General Site Description

The Site is currently an undeveloped agricultural parcel, used last growing season for corn production, with dirt farm access roads and a narrow fringe of forest along the north and east Site boundaries. The existing topography of the Site is generally flat, with the elevations varying from 148 feet along Old County Road to 140 feet along Route 20 to 100 feet at a farm pond located in the northeastern corner of the Subject Property. The northern half of the Site drains towards the Waterworks Brook Conservation Area ("WBCA"; present on the adjacent parcel to the north) with the northeastern portion of the Site sloping down to a farm field which then overflows onto the WBCA property and eventually into Waterworks Brook. The Site is bordered by multifamily residential buildings to the east, woods and the WBCA property to the north, Route 20 with agricultural fields beyond the highway south, and an industrial parcel occupied by Honda Power Equipment to the west.

Wetland Resources

Previously, this Site was permitted by the Town of Windsor Locks Inland Wetlands and Watercourses Commission ("IWWC") for a development project known as All Sports Village, a multi-use sports complex which would result in significant direct wetland impacts. Through that permit process, wetlands were identified and delineated by Davison Environmental, LCC. APT has reviewed materials submitted to the

IWWC as part of this prior permit application and have inspected the Site. A summary of current wetland resources is provided below.

Delineated wetlands are located along the northern and northeastern portions of the Site (much of the delineated wetland is located off-site on the WBCA property) draining north within seeps and eroded drainageways towards Waterworks Brook located on the adjacent WBCA property. On Site, the wetland is seasonally saturated and characterized by scrub-shrub and emergent cover types with the addition of a farm pond located along the field edge, all of these wetland features have been subject to anthropogenic (manmade) changes. Historic disturbances to these wetlands are primarily associated with adjacent agricultural land use and untreated runoff from the cultivated field. The farm pond was subjected to more recent alterations apparently associated with the ongoing farming operations. Surface and groundwater discharges are conveyed from this wetland system via a braided intermittent watercourse to a bordering wetland adjacent to the south bank of Waterworks Brook.

Preliminary Impact Analysis

The proposed Facility is currently in the concept planning stages and is anticipated to include the development of two warehouse buildings. The conceptual building layout includes a $\pm 1,004,900$ SF warehouse building (Building A), and an additional $\pm 150,000$ SF warehouse building (Building B). The conceptual warehouse Facility proposes to provide 100 trailer loading docks for Building A and 16 trailer loading docks for Building B. Additionally, the conceptual layout provides ± 671 employee parking spaces between four parking lots that would service both warehouse buildings. The Site is anticipated to be accessed by a proposed driveway off Old County Road.

The previous All Sports Village IWWC permit authorization included direct and temporary impacts to three wetland areas: northwest wetland/watercourse finger; farm pond; and, east wetland. The All Sports Village project would have resulted in a significant amount of wetland fill to these wetland resources with a loss of ± 0.4 acre of wetlands that directly abut the WBCA property and convey flows to Waterworks Brook.

With the conceptual Facility, there would be a significant reduction of direct wetland impacts as compared to the previously permitted project. It is anticipated the proposed Facility would avoid most if not all direct wetland impacts with possible minor direct/temporary impacts associated with outfall from a stormwater management feature anticipated in the northeast corner of the Site. Therefore, the conceptual development would not result in a likely adverse impact to wetland resources located on the Subject Property or to wetland resources or Waterworks Brook located on the adjacent WBCA property.

If you have any questions regarding the above-referenced information, please feel free to contact me by telephone at (860) 552-2033 or at dgustafson@allpointstech.com.

Scannell Properties #698, LLC 294 Grove Lane East, Suite 140 Wayzata, MN 55391

Re: Waterworks Brook Conservation Area

Windsor Locks, Connecticut APT Job No: CT3611060

At the request of Scannell Properties #698, LLC ("Scannell"), All-Points Technology Corporation, P.C. ("APT") performed a preliminary assessment of potential impacts to the Waterworks Brook Conservation Area ("WBCA") parcel from conceptual development of a warehouse facility (the "Facility") on a ± 76 -acre agricultural property (the "Site" or "Subject Property") located just south of the WBCA property. The Site is located on the east side of Old County Road, north of State Route 20, in Windsor Locks, Connecticut. The Facility would be primarily located within the upland agricultural field that dominates the Subject Property.

Waterworks Brook Conservation Area

The WBCA property consists of ± 198 acres of primarily forested habitat surrounding Waterworks Brook and bordering contributing wetlands, including a wetland area known as Powels Marsh. In addition, the Connecticut Department of Energy & Environmental Protection ("CTDEEP") Natural Diversity Data Base ("NDDB") maps Dry Acidic Forest Critical Habitat in the western portion of the WBCA property. The diversity of aquatic and terrestrial habitats supported by the large WBCA property provides a unique habitat block to Windsor Locks and the local region.

Conceptual development of the Site just south of the WBCA should consider the following measures to protect the WBCA property and its resources.

- Avoid/minimize wetland impacts that form part of the headwaters to Waterworks Brook. Conceptually, the proposed Site development will avoid direct wetland impacts. This is in contrast to the previous All Sports Village IWWC permit authorization which included direct and temporary impacts to three wetland areas: northwest wetland/watercourse finger; farm pond; and, east wetland. The All Sports Village project would have resulted in a significant amount of wetland fill to these wetland resources with a loss of ±0.4 acre of wetlands.
- Include a vegetative buffer along the north side of the Site that borders along WBCA. The
 Site's conceptual development allows for a 40' wide vegetative buffer along the
 boundary with WBCA. This vegetative buffer should retain the native vegetation present
 and consider removal of woody invasive plants and supplemental plantings of native trees and

shrubs to enhance the wildlife habitat of this ecotone between the existing cultivated field and the forested community that exists on the WBCA property.

- Incorporate stormwater best management practices and latest green low-impact technologies in the development's stormwater management system in accordance with the CTDEEP 2004 Connecticut Stormwater Quality Manual. This is an important consideration to ensure that stormwater generated by the development receives stormwater renovation from both a volumetric as well as water quality perspective to ensure that the WBCA property and in particular Waterworks Brook are not adversely affected by this runoff. Currently, untreated runoff from the cultivated agricultural field is a non-point source of agricultural pollution which drains into Waterworks Brook. This existing source of non-point source pollution would be eliminated by the proposed development.
- Consider a conservation easement along the north side of the Site within the 40' vegetative buffer to preserve this area in perpetuity, thereby enhancing the effective size of the WBCA property by ±5 acres.
- The Windsor Locks Conservation Commission's *Observations & Recommendations for Waterworks Brook Conservation Area*, dated November 2022, contains several recommendations to enhance the WBCA property. One of those recommendations is associated with the existing formal and informal trail systems within the WBCA and improving the trail system with consideration to link the trail to surrounding residential areas. These trail improvements may also consider linking the trail system out to Old County Road, possibly through the northwestern portion of the Site. In order to accomplish this analysis, the existing trail systems and critical habitats that are traversed by the trails should be surveyed and a GIS-based map prepared. The results of such a survey should be shared with the Conservation Commission in order to incorporate possible future trail improvement ideas. **Scannell may want to consider providing financial resources or other means to accomplish some of the proposed trail improvements and to provide an easement to allow for a trail extension on the Site.**

With the avoidance of direct wetland impacts, incorporation of stormwater BMPs, vegetative buffer/conservation easement, and possible trail enhancements on the WBCA property, the conceptual development of the Site would not only have no significant adverse impact on the WBCA property, it could result in enhancement of the conservation land.

Memorandum

Langan CT, Inc.

555 Long Wharf Drive New Haven, CT 06511 T: 203.562.5771 F: 203.789.6142

To: Daniel Madrigal – Scannell Properties

From: Chris McLean, P.E.

Tim Onderko, P.E.

Date: 6 April 2023

Re: Preliminary Traffic Assessment

Scannell – Windsor Locks

Old County Road, Windsor Locks, CT Langan Project No.: 140257601

Langan has prepared this memorandum to provide an overview of the potential trip generation and traffic permitting associated with the future development of two proposed warehouse buildings to be located on Old County Road in Windsor Locks, Connecticut. The project site is on approximately 76 acres of farmland and is located adjacent to CT Route 20. Scannell Properties has applied to the Windsor Locks Planning and Zoning Commission for approval of a rezoning from the current B-1 zoning district, with AIOZ overlay, to the I-1 zoning district with no overlay.

PROJECT DESCRIPTION & SITE HISTORY

The project is currently in the concept planning stages, and is anticipated to include the development of two warehouse buildings. The conceptual building layout includes a $\pm 1,000,000$ square-foot footprint warehouse building (Building A), and an additional $\pm 150,000$ square-foot footprint warehouse building (Building B), totaling approximately $\pm 1,150,000$ square-feet. This conceptual plan proposes to provide ± 100 trailer loading docks for Building A, and ± 16 trailer loading docks for Building B. Additionally, the conceptual layout provides ± 675 employee parking spaces between four parking lots throughout the site. The site is anticipated to be accessed by a proposed signalized driveway on Old County Road.

Previously, this site was permitted to support the development of a project known as "All Sports Village", a multi-use sports complex which was anticipated to include the uses of retail, restaurants, hotels, office, and several sports fields. The All Sports Village had proposed to provide two five-story hotels which were to provide a total of 300 rooms and a total gross-square-footage of 182,510, a single-story 220,800 square-foot gymnasium, a two-story mixed-use 100,000 gross-square-foot medical and retail building, a two-story 112,500 gross-square-foot entertainment and retail building, a one-story 132,500 square-foot indoor field facility, and nine associated sports fields. The All Sports Village additionally proposed to provide 2,388 parking spaces throughout the site. Based on the latest traffic study for the project, All Sports Village

MEMO

Preliminary Traffic Assessment Scannell – Windsor Locks Old County Road, Windsor Locks, CT Langan Project No.: 140257601 6 April 2023 - Page 2 of 5

was anticipating approximately 1,025 trips in the evening peak hour and 981 trips in the Saturday peak hour.

This previous project underwent local permitting with the town of Windsor Locks and received approval on the General Plan of development. The project also submitted an application to the CTDOT Office of State Traffic Administration's (OSTA) as a Major Traffic Generator, which includes a three-step certification process with the DOT, and was successfully carried through the second step. All Sports Village had proposed to replace the traffic signal at the Route 20 westbound on/off-ramps and install a new coordinated signal at the proposed driveway, approximately 150 feet north of the ramp intersection.

CONCEPTUAL TRIP GENERATION

The anticipated number of trips that would be generated by the proposed concept plan was developed by rates established by the Institute of Transportation Engineers (ITE) Trip Generation Manual, 11th Edition. The ITE Trip Generation Manual is the industry standard for traffic engineers to use to estimate traffic to and from a future site and incorporates data from across the United States and uses statistical analysis to provide trip generation rates for various land uses. Land Use Code (LUC) 150: Warehousing was used to estimate the anticipated trip generation, since that is the intended land use for the project. A warehouse typical operation include employees arriving and leaving the site during major shift changes and truck activity outside of these hours to avoid traffic. Warehouses are identifiable for the longer term storage of goods and materials, typically for a week or longer.

Overall, the number of trips the proposed development is expected to generate is 185 for the AM peak-hour, and 190 for the PM peak-hour. The total trip generation from the uses proposed in the rezoning application would be far less than the trip generation that was previously approved for All Sports Village. **Table 1** below identifies the anticipated peak-hour trip generation of the proposed development using ITE data, and compares it to the previously approved trip generation for All Sports Village.

¹ Land Use Codes based on ITE Trip Generation Manual 11th Edition

³ Volume based on ITE Trip Generation Manual 11th Edition: Land Use Code 150: Warehousing In addition to estimating the total number of trips to and from the site, the ITE Trip Generation Manual also provides trip generation rates for trucks. Using the truck trip generation rates for Land Use Code 150: Warehousing, **Table 2** provides the estimate for trucks driving to and from the site during the morning and afternoon peak hours. Typical warehouse operations schedule truck arrivals and departures during off-peak times to avoid traffic on the surrounding roadway network.

TABLE 2 ANTICIPATED TRUCK TRIP GENERATION							
	LAND	AM PEAK HOUR			PM PEAK HOUR		
USE	USE CODE	ENTER	EXIT	TOTAL	ENTER	EXIT	TOTAL
Warehousing Building A (1,000,000 SF)	150	10	10	20	16	14	30
Warehousing Building B (150,000 SF)	150	2	1	3	2	3	5
Proposed Trucks Trips		12	11	23	18	17	35

² Approved All Sports Village traffic volumes based on memo titled "All Sports Village – Windsor Locks, CT – Trip Generation Comparison" dated July 29, 2020 in Table 2. Saturday peak hour volumes: 981 total (515 enter, 466 exit)

MEMO

Preliminary Traffic Assessment Scannell – Windsor Locks Old County Road, Windsor Locks, CT Langan Project No.: 140257601

6 April 2023 - Page 4 of 5

ALTERNATIVE TRIP GENERATION

The project site is currently zoned for Business Zone 1 (Bus-1), which allows for the following uses: multi-family dwelling, retail stores, restaurants, and offices. If desired, the property owner could propose a mixed-use development with these uses under the current zoning for the parcel. Although currently no plans are in place to construct a mixed-use development, these uses could potentially generate a higher amount of traffic than under the current warehouse proposal to rezone to I-1. For instance, **Table 3** provides a conceptual trip generation estimate for a zoning compliant retail use.

TABLE 3 CONCEPTUAL RETAIL USE TRIP GENERATION							
USE	LAND USE CODE	AM PEAK HOUR ENTER EXIT TOTAL			PM F ENTER	EXIT	TOTAL
Retail Use (±660,000 SF)	820	324	199	523	1,054	1,142	2,196

As shown above, a zoning compliant retail use under the current zone would generate approximately eleven times more traffic during the afternoon peak-hour and nearly triple the morning peak-hour more than the proposed warehouse development.

CONCEPTUAL TRAFFIC OPERATIONS

At the proposed site driveway, the developer has received feedback from the public and the Planning & Zoning Commission about concerns for truck traffic on Old County Road. The Windsor Locks Plan of Conservation and Development (POCD) has stated that truck traffic on Old County Road should be discouraged. The developer has agreed to prohibit trucks from turning right out of the site driveway and to force all trucks to turn left toward Route 20. The site driveway will be designed with a small curb radius on the right side and signage notifying telling truck drivers that they must turn left.

The proposed warehouse development will also require the installation of a new traffic signal at the proposed site driveway. Due to the site's limited frontage on Old County Road, the new driveway will be in close proximity to the existing traffic signal for the intersection of Old County Road and the Route 20 ramps. The previous development for All Sports Village proposed and received preliminary approvals for a coordinated traffic signal for both the existing ramps and the new site driveway. The conceptual traffic improvements proposed for the warehouse development will include the reconstruction of the existing signal and installation of a new signal

MEMO

Preliminary Traffic Assessment Scannell – Windsor Locks Old County Road, Windsor Locks, CT Langan Project No.: 140257601 6 April 2023 - Page 5 of 5

at the driveway. As was previously proposed for All Sports Village, the two proposed signals will operate as one. This operation will allow northbound and southbound traffic to travel through both signals and will clear traffic from between the driveway and ramp before giving each ramp or driveway a green light. For safety reasons, the center of the intersection will remain clear of stopped traffic. This proposed operation will require review and approval by CTDOT.

ANTICIPATED TRAFFIC PERMITTING

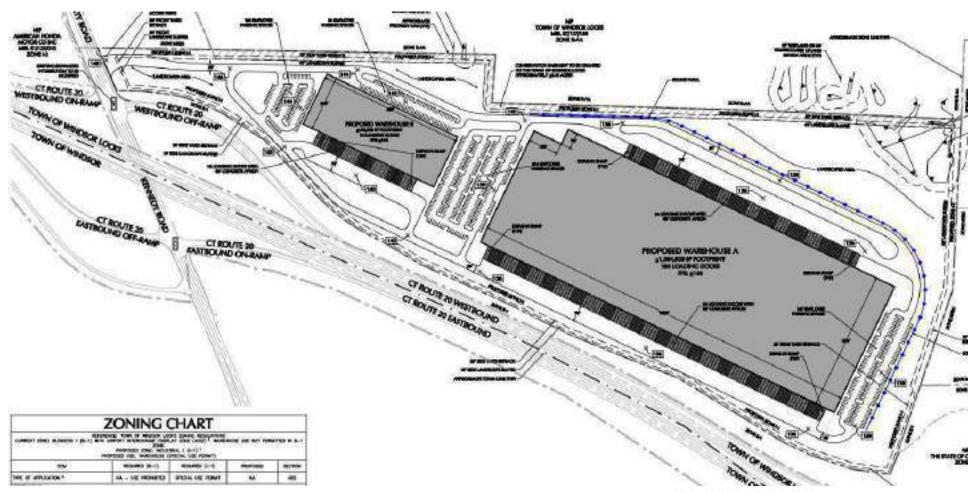

If the rezoning is approved, the new warehouse development will require special use permit approval from the Town of Windsor Locks Planning and Zoning Commission. Additionally, the project will also require permitting through CTDOT OSTA as a Major Traffic Generator, as the project anticipates improvements within the state right-of-way. Once local and state approvals for the project are secured, the project will also require an encroachment permit from the local CTDOT District 2 office to construct the proposed improvements. As part of this new warehouse project permitting, we anticipate to work with the DOT on any necessary improvements to the roadway as a result of the traffic to be generated by the warehouses including but not limited to: Old County Road, Kennedy Road, and the CT Route 20 on and off ramps. All traffic-related improvements would be at the developer's expense.

Market Feasibility and Economic Impact Study:

"Old County Road" Development

Northeast Parcel at the corner of Old County Rd and Route 20 | Windsor Locks, CT

Economic Impact Analysis	10
Fiscal Impact Analysis	14
APPENDIX: Letter to Planning and Zoning Commission	20

GOMAN+YORK

Executive Summary

Conclusions and Recommendations

Goman+York, received a request to prepare a Fiscal & Economic Impact Study (FEIS) from *Scannell Properties* (the "Developer") regarding the development of a new logistics project in the Town of Windsor Locks, Connecticut (the "Property" or "Old County Road").

Goman+York reviewed the Developer's construction cost estimates and operating estimates to create a prospective proforma for the development. The general approach of our methodology is to make *conservative assumptions, given the high-risk nature of real estate development and the current market volatility*.

The development is uniquely attractive due to its superior access to Bradley Airport and major interstate highways, allowing access to major markets both in Connecticut and beyond.

Economic Impact – Summary of Findings

From the perspective of economic impact, the proposed project will create and/or sustain approximately 200 FTE construction jobs, 144 permanent warehouse jobs, 50 truck driving jobs, and approximately \$8,178,200 in wealth creation per year after completion. In short, the proposed facility will have a meaningful positive economic impact on the Town of Windsor Locks.

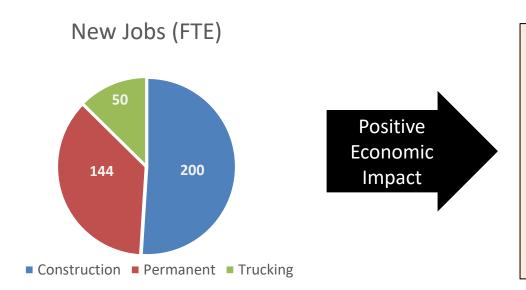

Municipal Fiscal Impact – Summary of Findings

Based upon the entirety of our municipal fiscal impact analysis, we conclude that the proposed 1,154,900 sq. ft. industrial warehouse will generate a net positive fiscal impact for the Town of Windsor Locks. The one-time permitting fees will result in approximately \$1,165,399 in permit revenue, offsetting the costs associated with administering the entitlement process. Once occupied, we estimate that the warehouse will generate approximately \$2,848,283 in real and personal property tax revenues per year, of which approximately \$1,942,012 per year will be net fiscal positive tax revenue after the estimated expenses are incurred for general government services.

Executive Summary

Economic & Fiscal Impact

Total FTE jobs created directly from development:

200

New, permanent, FTE jobs created <u>on-site and in surrounding area</u> from warehouse operations:

144

New, permanent, FTE jobs created <u>on-site and in surrounding area</u> from trucking/freight jobs:

50

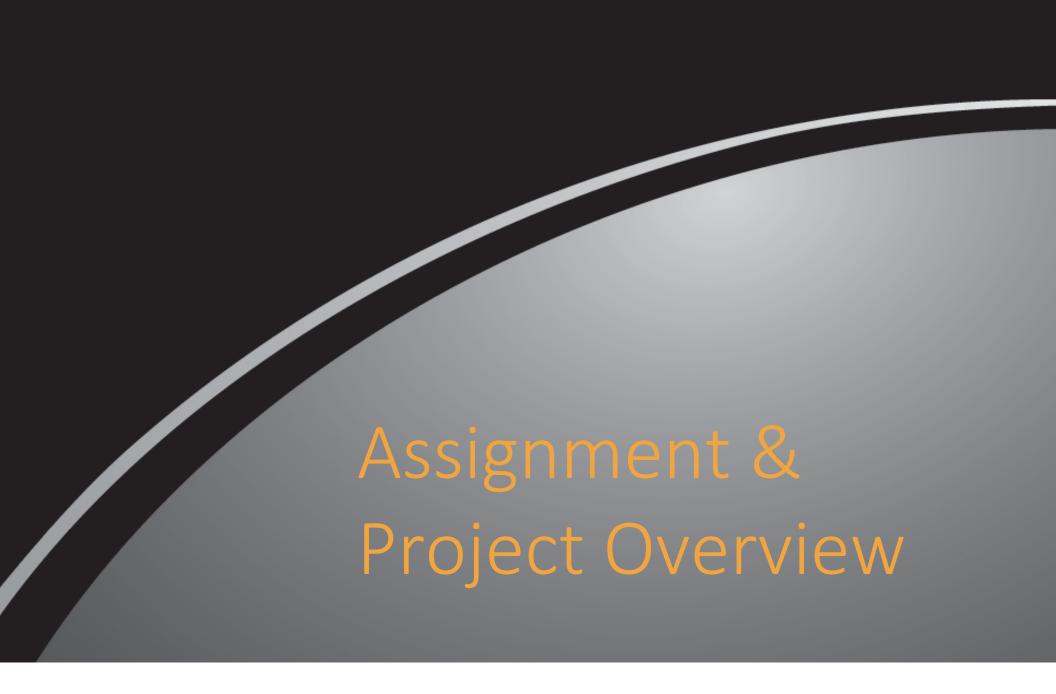

Municipal Fiscal Impact

Based on:

General Government Services Expenditures of \$906,271

The proposed development will cost the Town approximately \$906,271 per year or \$1,942,012 less than the approximate \$2,848,283 in total real and personal property taxes paid by the development. The proposed development is a net fiscal positive for the Town of Windsor Locks. In addition, the development will generate approximately \$1,165,399 in one-time development fee for the Town.

GOMAN+YORK

The Assignment

Old County Road | Windsor Locks, CT

Goman+York Property Advisors was asked to conduct a municipal fiscal and economic impact analysis of the proposed industrial development at the corner of Old County Road and Route 20 (Parcel ID: 00325900 and Map/Block/Lot: 056-127-001), Windsor Locks, Connecticut. The proposed development consists of 2 buildings, occupying a combined 1,154,900 square feet with 671 parking spaces, and 116 loading docks. Our analysis is designed to determine the municipal fiscal impact (revenues versus expenditures) of the proposed development on the Town of Windsor Locks.

Our analysis includes:

- 1. Reviewing the development cost pro forma and any related information, as provided by Scannell Properties.
- 2. Reviewing the pro forma Operating Statement for the completed project, as provided by the Developer.
- 3. Calculations showing the fiscal and economic impact on the Town, including:
 - the ongoing property and vehicle tax revenue likely to be realized by the Town,
 - estimates for one-time revenues to the Town, including building permits and associated fees,
 - the estimated increase in Disposable Incomes presented by the employees and customers of the planned project and the resultant increase in spending at local businesses.
- Estimating the net increase in property taxes that the Town can reasonably expect to receive from the new development.

Hard Costs (Including Land)	\$125,000,000	\$108.23	87.3%
Soft Costs	\$18,207,537	\$15.77	12.7%
Total Development Cost	\$143,207,537	\$124.00	100.0%

GOMAN+YORK

Economic & Demographic Trends

Assumptions & Trends

Background – Economic and Demographic Trends:

Demographics and socioeconomics help to inform us as to why and how change occurs. In addition, such trends provide context to understanding real estate asset classes, real estate development, and the market conditions that drive real estate investment. The following is a summary of trends at the national and state scale.

United States:

- Like many developed countries, the median age in the U.S. is getting older. Median Age:
 - United States = 38.5
- The expected increase in the U.S. population in the coming years will be mostly the result of immigration as fertility (birth) rates have been in decline for over a half century (U.S. fertility rate declined from 2.08 in 2008 to 1.64 in 2020).
- Traditional 'Blue Collar' jobs are being replaced with jobs for 'Knowledge Workers' and 'Service Workers.'
- Commercial space (office, retail, and industrial) markets vary greatly by metropolitan region depending on demand drivers (i.e., employment and population growth). Commercial office space has been stagnant, other than some activity in medical office space, especially in aging suburban metropolitan markets. Retail space has experienced disruption from ecommerce and changes in consumer behavior—newly constructed retail as part of mixed-use developments have fared better than older and conventional retail space. Industrial space, especially warehouse, distribution, and procurement centers, is robust and growing.

Connecticut:

- Connecticut reflects overall trends in the U.S., as described above.
- Connecticut's increase in population is mostly the result of immigration as fertility (birth) rates have been in decline for over a half century (CT fertility rate declined from 1.88 in 2008 to 1.52 in 2020). Connecticut will continue to be older than U.S. median age: Connecticut Median Age = 41.0
- The U.S. Northeast and New England, especially, are in an extended period of slow or no growth in terms of job creation, population, and business formation (other than the Boston metropolitan area that has experienced moderate growth). Connecticut has been a slow- to nogrowth state for three decades and has suffered the slowest economic recovery of any state since 2009 Great Recession.
- Changing demographics, socioeconomics, and consumer preference/behaviors continue to drive changes in demand across all real estate asset classes.
- Industrial space, especially warehouse and distribution space, is experiencing considerable growth and robust demand. This is, in part, the result of Connecticut's location between the New York and Boston markets, continued increases in ecommerce, and changing needs and requirements for modern warehouse and distribution space. The Greater Hartford market is well-positioned to benefit from this renewed demand in industrial space—and has benefited from this renewed demand.

Economic Impact Analysis

Methodology & Calculations

Assumptions – Construction and Permanent Jobs Impact:

To estimate construction jobs created (and/or sustained) by industrial (construction), we use a multiplier of 3.2 labor hours per \$1,000 of total construction costs (total project cost less the soft costs) that are derived from various sources on economic impacts.

Calculation: Construction cost multiplied by labor hours of 3.2 hours per \$1,000 construction cost and divided by 2,000 hours (average full-time hours worked per year) equals the total number of construction jobs created and/or sustained. For example, if the construction costs are estimated at \$10,000,000 x 3.2 (labor hour multiplier) = \$32,000,000 / 1,000 (per \$1,000 construction cost) = 32,000 hours / 2,000 (full-time employment hours) = 16 jobs.

To estimate permanent jobs created (and/or sustained) by industrial development in the Hartford Region we derive multipliers from comparable recent developments.

Economic Impact

The aim of our economic impact assessment is to provide the Town of Windsor Locks with a reasonable and conservative estimate of the economic impact of the Old County Road development. To accomplish this, we utilize economic development research studies and industry sources to develop multipliers that allow us to estimate job creation.

Construction Jobs

Per the developers pro forma and our testing of the pro forma numbers, the hard costs are expected to be \$125,000,000. Being conservative in our work and based on the sample calculation below, we project that 200 FTE construction jobs will be created (and/or sustained). The calculation, hard

construction costs of $$125,000,000 \times 3.2$ (labor hour multiplier) = \$400,000,000 / \$1,000 (per \$1,000 of construction cost) = 400,000 hours / 2,000 (1-year full-time employment hours) = 200 full-time equivalent (FTE) construction jobs to be created and/or sustained during the construction period of the industrial development.

Permanent Jobs

Based on similar projects that we have worked on in the Hartford Region, recent developments with known tenants, have resulted in approximately 1 employee per 8,000 sq. ft. Considering this, we estimate that the 1,154,900 sq. ft. industrial warehouse will result in 144 permanent jobs, of which 128 will be Industrial Warehouse workers and 16 will be Management/Office workers. In addition to the 144 warehouse jobs, this development will also create trucking jobs. We conservatively estimate the creation of about 50 trucking jobs.

Total Jobs

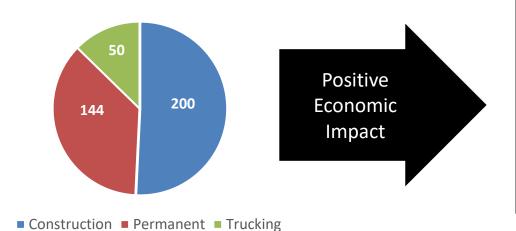

Based on the estimates above, we conclude that the proposed industrial warehouse development will likely result in approximately 200 construction jobs, 144 permanent warehouse jobs, 50 full-time trucking jobs, and \$8,178,200 in yearly wealth creation.

Economic Impact Analysis

Job Creation Estimates

Total FTE jobs created directly from development:

194

New, permanent, FTE jobs created on-site industrial warehouse:

144

New, permanent, FTE jobs created from trucking/freight jobs:

50

	Proposed Warehouse			
Jobs by Type	Average Salary/Year	Wealth Creation		
Construction = 200	\$57,200	\$11,440,000		
Industrial Warehouse = 128	\$35,000	\$4,480,000/yr.		
Industrial Office/Managers = 16	\$68,950	\$1,103,200/yr.		
Truck Driving – Freight = 50	\$51,900	\$2,595,000/yr.		
	Total Wealth/Year	\$8,178,200		

GOMAN+YORK

Economic Context of Change

The Changing Landscape of Commercial/Industrial Space

Today, with the arrival of ecommerce, the retail sector continues to change. However, ecommerce retailing is not simply a spatial shift in the physical location of retail, it is a shift to a virtual space that captures market share, while rendering some physical locations and physical spaces of past and present brick and mortar retailing functionally obsolete. With all these shifts and changes in industry, business, and consumption, the one constant is a continued increased need for logistics, the distribution and transportation of goods and services to end users. Most important, in addition to the traditional ecommerce of companies such as Amazon, new virtual products and services, such as meal delivery services (i.e., Daily Harvest, Hello Fresh, and Blue Apron) are further increasing the demand for logistics.

This ever-increasing demand for logistics has given rise to the global logistics and delivery firms such as DHL, UPS, and FedEx. The rise in the need for and importance of logistics has created new demand for fulfilment centers, processing facilities, warehouses, truck terminals, and distribution centers. Most important regarding this application, is that the need for warehouses and distribution centers with good access to the regional market are driving demand for industrial land uses. In addition, with limited land available in the urban core of metropolitan regions, suburban locations with good access to highways, airports, and available land are capturing the bulk of this industrial expansion and economic activity.

From the perspective of land use and community planning, we are continually confronted with changing demand for new land uses, even though they often appear uninteresting and mundane. For example, the restaurant pad-site on shopping center parcels, the drive-thru window, the standalone drive-thru only coffee shop. Now, state-of-the-art warehouse and distribution centers. The challenge faced by community planning is not to resist change, but to embrace and manage change. Adaptation is the foundation to resilience. Foresight and intentional action are the remedies to complacency, uncertainty, and functional obsolescence. Those who act now—will stay ahead of the curve and capture new opportunities. "New

products and...services are generated...by knowledge, imagination, innovation, risk, trial, and effort..." and those who are first to "innovate and are lucky will take the market." Windsor Locks has been open to and a leader in adaptation with its redevelopment efforts. This application furthers Windsor Locks' adaptation to ever-changing demand, land use, and economic development opportunities. While entrepreneurial spirit and efforts are often constrained by governance structures, government can also be entrepreneurial in its efforts, allowing market-driven uses as a means of moving the community forward, while providing jobs, wealth creation, and growing the Grand List.

Approach and Assumptions

Land Use and Municipal Fiscal Impacts

It is commonly understood that commercial and industrial land uses are fiscal positives regarding municipal tax revenue. For example, a 2012 study published by the American Farmland Trust and Connecticut Conference of Municipalities explained that commercial land uses in Connecticut require, on average, only \$0.27 in community services for every \$1.00 generated in tax revenue. The primary reason for this—commercial properties paying more in taxes than the services they require and receive—is the significant portion of municipal budgets allocated to public education and the fact that commercial properties do not utilize education related services. For example, the Town of Windsor Locks 2022-23 budget totals \$52,390,797, of which \$32,165,201 (or 61.4%) is Board of Education expenditures. Municipal operations (general government services) total \$17,096,525 (or 32.6%). There is an additional \$3,129,525 (or 6.0%) for debt service.

In addition to education, there are other general government services, such as social services, senior centers, parks and recreation, and so on that commercial and industrial properties do not utilize. Based on the limited services utilized by commercial uses, the \$0.27 per \$1.00 in tax revenue from the study above, and the fact that general government (less education spending) and debt services only accounts for 38.6% of the total municipal budget, it is reasonable to assume that approximately 27% of the municipal expenditures support and provide services to commercial and industrial properties. To be conservative, for the purpose of our calculations, we assume that \$0.35 of every \$1.00 paid in taxes by commercial and industrial properties are used to provide general government services for those properties. Therefore, we assume that \$0.65 of every \$1.00 paid in taxes by commercial and industrial properties are fiscally positive revenue that helps fund other government services.

It is important to emphasize that the foregoing represents a conservative and

generalized estimate of the additional expenses which could be generated by the subject project. A more realistic estimate of the actual expenses to the Town is derived utilizing a marginal cost approach which attempts to estimate the actual expenses generated by an operation of the specific size and scope. In this example, we would expect the proposed project to add little additional burden to the town's scope of services and therefore a more likely estimate would be that the marginal increase in expenses would likely be in the range of 10% to 15% of revenues. For this specific project and use, we would still consider this to be a conservative range, in favor of the town's position.

The Existing Undeveloped Property and Tax Revenue

The first step in assessing the municipal fiscal impact is to establish the baseline of current property values and taxes paid by the subject property. The subject property consists of approximately 76.17 acres. Based on the Assessor's records, the appraised land value is approximately \$7,893,600 and is reduced by the PA-490 designation to approximately \$105,600. The total assessment for the parcel is approximately \$73,930 and the subject property pays approximately \$25.08 per acre in taxes or a total of \$1,910 per year in taxes for the 76.17 acres. From the perspective of municipal fiscal impacts, it is reasonable to assume that the farmland requires fewer government services than the taxes paid. Therefore, we assume the existing subject site to produce net positive revenue—be it very little—to the Town of Windsor Locks.

Expenditures for Government Services

Expenditures – Education

Commercial properties do not utilize education-related services, which make up 61.4% of the Town of Windsor Locks 2022-2023 budget.

Expenditures – General Government Services

General government services, for the purposes of this analysis, are all local government functions (i.e. police, fire, town hall office, public works, etc.), excluding education. Therefore, the expenditures for general government services are based on the Town of Windsor Locks 2022-2023 budget, less education. The total Windsor Locks budget for 2022-2023 was \$52,390,797 of which \$32,165,201 (61.4%) was for education. Less the education budget, General Government Services were \$17,096,525 and Capital Financing was \$3,129,525.

General government services, such as social services, senior centers, parks and recreation, and so on are not utilized by commercial and industrial properties. Based on the limited services utilized by commercial uses, the \$0.27 per \$1.00 in tax revenue from the study above, and the fact that general government (less education spending) and debt services only accounts for 38.6% of the total municipal budget, it is reasonable to assume that approximately 27% of the municipal expenditures support and provide services to commercial and industrial properties. To be conservative, for the purpose of our calculations, we assume that \$0.35 of every \$1.00 paid in taxes by commercial and industrial properties are used to provide general government services for those properties. Therefore, we assume that \$0.65 of every \$1.00 paid in taxes by commercial and industrial properties are fiscally positive revenue that helps fund other government services.

Revenues – Real Property Taxes

For the proposed 1,154,900 sq. ft. warehouse, we estimate the property (appraised/market) value when constructed to be \$143,207,537. Therefore, we estimate the assessed value at \$100,245,759. The assessed value multiplied by the Mill Rate (25.83 or 0.02583) estimates that the warehouse, once developed and occupied, will generate approximately \$2,589,348 in real property taxes per year.

Revenues – Personal Property Taxes (Commercial Equipment)

Personal property taxes on commercial equipment for warehousing and distribution businesses are approximately 10% of the real property tax value. The real property taxes for this proposed warehouse are estimated at \$2,589,348 per year, therefore we estimate the personal property taxes to total approximately \$258,935 per year.

Total Revenues – Real and Personal Property Taxes

Based on our development proforma calculations above, Goman+York projects the development will generate approximately \$2,589,348, in new real property tax revenue per year and \$258,935 in personal property tax revenue (commercial equipment) for a total of \$2,848,283 in new tax revenue.

Municipal Fiscal Impact

Based on the General Government Services Expenditures being 35% of the total real property taxes, the proposed development will cost the Town approximately \$906,271 in expenditures. Therefore, the proposed development will generate \$1,942,012 in total real and personal property taxes paid by the development. The proposed development is a fiscal positive for the Town of Windsor Locks.

Evaluating the Value of Building Permit Fees

Understanding Building Permit Fees

Fees are charged by government to recoup the reasonable cost of providing the government services directly related to the activity upon which the fee is levied. In the case of building permits, the fees are collected to recoup the actual cost associated with providing the administration and documentation necessary for a building permit. For example, building permit fees can be used to recover staffing costs associated with processing the permit application, reviewing the plans, and conducting on-site inspections for compliance with codes and the proposed plans. It is not uncommon for building permit fees for large construction projects to be tens of thousands and even hundreds of thousands of dollars. Therefore, such fees can be a substantial cost to the developer.

Our experience, as past government officials and developers, has taught us that the structure of building permit fees often underestimates actual cost to the municipality for smaller development projects and overestimates them for larger projects. For the developer, building permit fees are like other soft cost—they are simply part of the cost of doing business—and are part of the total cost of the project. However, unlike property taxes that are paid yearly and after construction is completed, building permit fees are paid before construction commences. Therefore, while property taxes impact the operating expenses of the completed development, permitting fee impact the up-front costs of the development and become part of the capital stack (debt and equity investment structure).

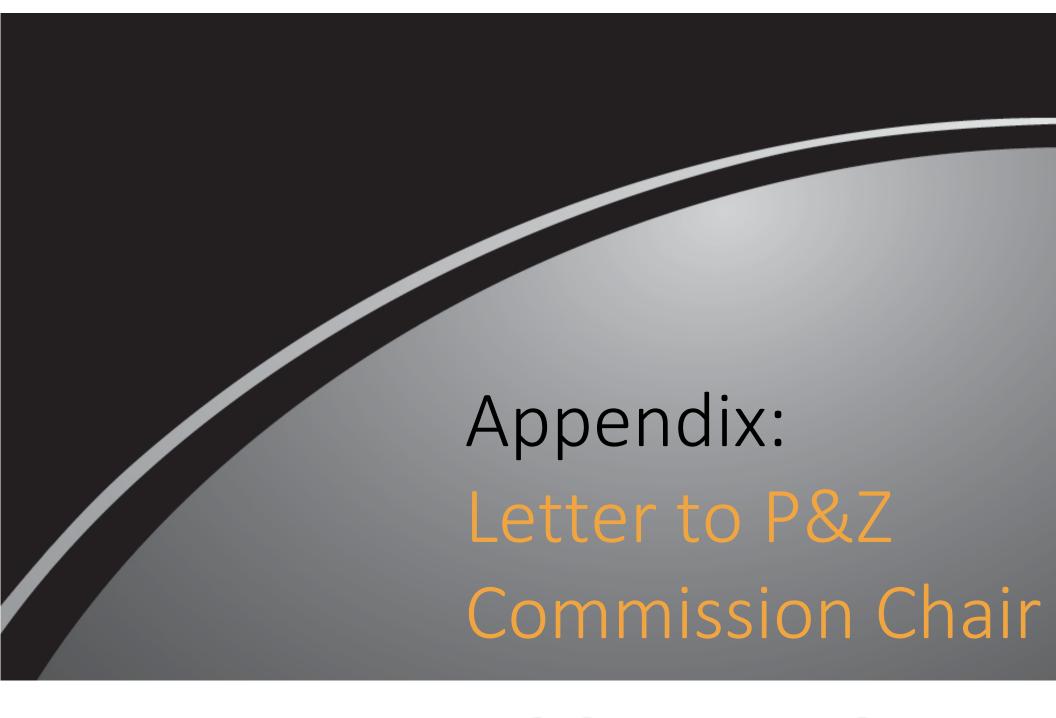

Estimation of Permit Fees

One-Time Development Fees

Based on the Windsor Locks Building Permit and Land Use Fees, we estimate one-time development fees to total approximately \$1,165,399.

Permits	Fees/Rate	Base	Total
Building Permit	\$16/\$1,000 of construction cost	\$57,500,000	\$920,000
Fire Marshall Review	25% of Building Permit Fee	\$920,000	\$230,000
Planning & Zoning	Map Amendment \$300, Special Permit \$250, Site Plan \$11,549	1,154,900 sf.	\$12,099
Wetlands Application	Commercial Application	\$150	\$150
WPCA (Connection)	\$3,000/unit plus Inspection Feet	\$3,150	\$3,150
		To	al \$1,165,399

GOMAN+YORK

April 5, 2023

Ms. Peggy Sayers Chair Planning & Zoning Commission Town of Windsor Locks 50 Church Street Windsor Locks, CT 06096

Dear Chairwoman Sayers:

As additional information for the cost to town services referenced in our Fiscal & Economic Impact Study, we provide the following explanation.

It is commonly accepted by planning professionals that commercial and industrial land uses are fiscal positives regarding municipal tax revenue. For example, a 2012 study published by the American Farmland Trust and Connecticut Conference of Municipalities explained that commercial land uses in Connecticut require, on average, only \$0.27 in community services for every \$1.00 generated in tax revenue. The primary reason is that fiscal and economic impact studies have repeatedly shown that commercial and industrial properties pay more in taxes than the services they require and receive. This is largely due to the fact that a significant portion of municipal budgets is allocated to public education and commercial properties do not utilize education related services. For example, the Town of Windsor Locks 2022-23 budget totals \$52,390,797, of which \$32,165,201 (or 61.4%) is Board of Education expenditures. Municipal operations (general government services) total \$17,096,525 (or 32.6%). There is an additional \$3,129,525 (or 6.0%) for debt service. In addition to education, there are other general government services, such as social services, senior centers, parks and recreation, and so on that commercial and industrial properties do not utilize. Given the foregoing, it is reasonable to assume that approximately 27% of total municipal expenditures goes to support and provide services to commercial and industrial properties.

While the foregoing is an accepted way to estimate the cost of services to commercial and industrial properties, our practice is to be conservative, and so, for the purpose of our calculations, we assume that \$0.35 of every \$1.00 paid in taxes by commercial and industrial properties are used to provide general government services for those properties. Therefore, we

assume that \$0.65 of every \$1.00 paid in taxes by commercial and industrial properties are fiscally positive revenue that helps fund other government services.

It is important to emphasize that the foregoing represents a conservative and generalized estimate of the additional expenses which could be generated by the subject project and is developed using a methodology that is consistent with accepted industry practice. However, a more realistic estimate of the actual expenses to the Town is derived utilizing a marginal cost approach which attempts to estimate the actual expenses generated by an operation of the specific size and scope. Using that approach, we would expect the proposed project to add little additional burden to the town's scope of services and therefore a more likely estimate would be that the marginal increase in expenses would likely be in the range of 10% to 15% of revenues (\$258,934 to \$388,402). For this specific project and use, we would still consider this to be a conservative range, in favor of the town's position.

We hope that the foregoing is helpful.

Thank you,

Delphal

Peggy Sayers, Chair Town of Windsor Locks Planning & Zoning Commission 50 Church Street Windsor Locks, CT 06096

Dear Chair Sayers,

The Connecticut Airport Authority (CAA) is the quasi-public agency that owns and operates Bradley International Airport (BDL) and five general aviation airports in the state. One of the CAA's primary goals is maximizing Bradley International Airport's potential as a facilitator for economic growth in the region.

Over the past several years, BDL has experienced a resurgence in cargo activity. The airport has long enjoyed strong partnerships with the main cargo carriers – UPS, FedEx, and DHL – each of whom maintains a significant presence at the airport. In 2018, the CAA was able to attract a considerable investment from Amazon, as the company entered into a long-term lease for 90,000 sq. ft. of existing cargo space at the airport. Since the start of the pandemic, airport cargo traffic has also grown significantly, rising from 336,327,154 lbs. in FY2019 to as high as 392,327,178 lbs. in FY2021. All of this means more revenue for the airport, more revenue and employment for all of the associated businesses in the vicinity of the airport, and more tax revenue for the Town.

The CAA is about to launch a cargo feasibility study to explore the potential for building new on-airport cargo facilities and attracting new cargo operators to the airport. Naturally, the infrastructure available in surrounding communities will be crucial in serving the stakeholders who would need to relocate to be in close proximity to the airport.

The CAA believes that the Old County Road Project dovetails nicely with the Authority's plans for Bradley International Airport, and we support it moving forward. We look forward to working with you and the Town on this exciting development and the enhancement of cargo opportunities as a whole.

Please never hesitate to contact me at 860-292-2054 if you have any questions.

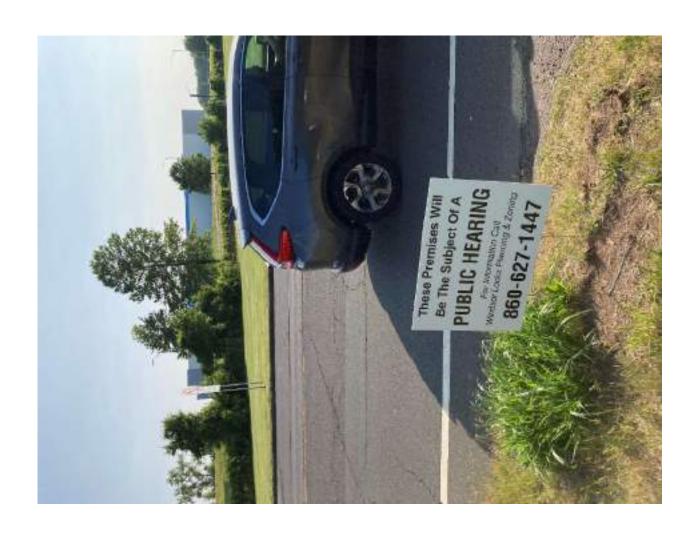

Sincerely,

Kevin A. Dillon, A.A.E.

Kever A. Dillon

Project Summary

Spur Economic Development

- New Jobs and tax revenue
- Facilitate development of underutilized property

The proposed project addresses:

Traffic:

- major traffic improvements proposed replicated on the ASV project that was thoroughly reviewed previously by state and local officials.
- 80% reduction in the overall traffic in relation to what ASV proposed
- No right Turn onto Old County Road for Trucks permitted

Sound:

- Robust Soundwall that runs the length of the building
- Scannell is willing to invest significant money increasing the height of the sound wall to address backup beeper alarm concerns even though the state and local sound regulations exclude them from any analysis.

Waterworks Brook Conservation Area:

- No direct wetland impacts anticipated by proposed development
- 40' wide conservation area buffer along north property boundary
- WWBCA resource mapping & trail improvements

Market Demand - Office/Retail

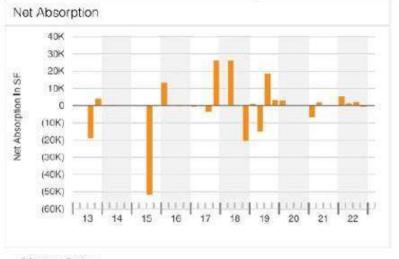

Market Demand: Rezoning is Necessary to Attract Investment:

- No demand for retail or office development of any scale
 - Both sectors are overbuilt
- Hotels, medical uses: site lacks desired adjacency
- Apartment development:
 - Focus is on sites in walking distance to:
 - F&B, shops and services
 - Public transit
 - Public recreation opportunities
 - Market slowdown, declining financial feasibility

Office Net Absorption

Retail Net Absorption

^{*} Source: Costar

Market Demand - Industrial

- Significant demand for self-storage
 - Low fiscal & economic benefit
- Strong demand for industrial warehouse development
 - Highly suitable site for industrial warehouse use
 - Near 0% Vacancy and 100%
 Occupancy rates indicate a high demand for industrial properties
 - Compatible in character with nearby uses
 - Excellent, direct access to highways, minimal impact on local roads
 - Attractive access to area labor pool critical mass of similar uses
 - Highly positive net fiscal impact to community

Industrial Vacancy/Occupancy Rates

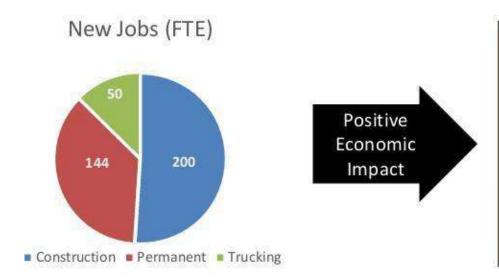

* Source: Costar

Compatibility with Surrounding Use

Economic & Fiscal Impact

Total FTE jobs created directly from development:

200

New, permanent, FTE jobs created <u>on-site and in surrounding area</u> from warehouse operations:

144

New, permanent, FTE jobs created <u>on-site and in surrounding area</u> from trucking/freight jobs:

50

Municipal Fiscal Impact

Based on:

General Government Services Expenditures of \$906,271

The proposed development will cost the Town approximately \$906,271 per year or \$1,942,012 less than the approximate \$2,848,283 in total real and personal property taxes paid by the development. The proposed development is a net fiscal positive for the Town of Windsor Locks. In addition, the development will generate approximately \$1,165,399 in one-time development fee for the Town.

Proposed Warehouse

Jobs by Type	Average Salary/Year	Wealth Creation
Construction = 200	\$57,200	\$11,440,000
Industrial Warehouse = 128	\$35,000	\$4,480,000/yr.
Industrial Office/Managers = 16	\$68,950	\$1,103,200/yr.
Truck Driving - Freight = 50	\$51,900	\$2,595,000/yr.
	Total Wealth/Year	\$8,178,200

Summary of Changes from Previous Application

ltem	Initial Application (Submitted October 2022)	Curent Application (Submitted April 2023)	Delta/Change
Proposed Zone	Industrial 2 (I-2)	Industrial 1 (I-1)	New Zone
Zoning Application Type	Site Plan	Special Permit	Additional Scrutiny
Proposed Loading Docks	205 Docks	116 Docks	89 (43% Decrease)
Proposed Trailer Parking Spaces	122 Spaces	0 Spaces	122 (100% Decrease)
Linear Feet of Sound Wall	2,719 FT	2,798 FT	79 FT (2.5% Increase)
Separation of Sound Wall from Eastern Property Line	40 FT	96 FT	56 FT (140% Increase)
Impervious Coverage	63.60%	60.50%	3.1% (Reduction of 2.4 acres of impervious area)

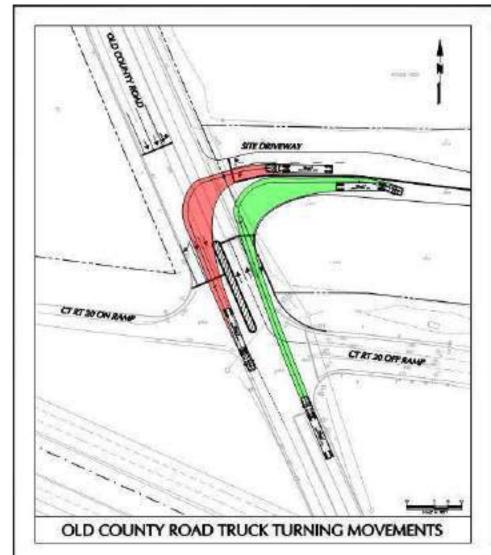

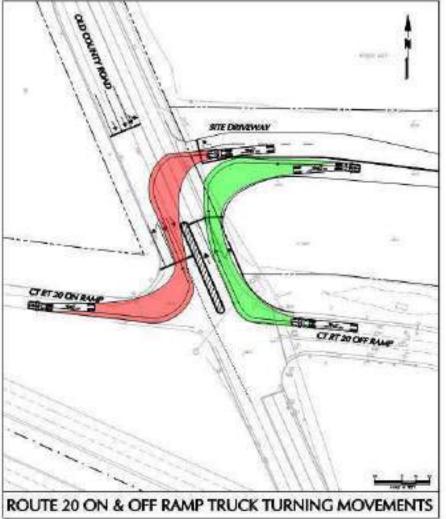

Traffic Methodology

- ITE Trip Generation 11th Edition
- Data taken from multiple similar facilities throughout US
- Warehousing (land use code 150) was selected
- Alternates:
 - Manufacturing (140)
 - High-cube transload & short-term storage warehouse (154)
 - High-cube fulfillment center (155)
 - Last-mile delivery station

Sound Study Overview

Two-part study:

1. Windsor Locks Noise Ordinance Compliance Evaluation

2. Consideration of Truck Backup Beepers

1. Compliance Evaluation

- Model sound from rooftop HVAC equipment and loading dock activity, i.e., stationary sound sources
- Conservative scenario
 - All HVAC equipment running at full load
 - Loading dock activity at 25% of the docks
- 10-foot sound wall to mitigate sound at residential properties north and east of the Project including the Waterworks Brook property
- Result: Project complies with the Town's nighttime property line standards with 10-foot wall

2. Backup Beeper Consideration

Sound Modeling

- Additional modeling performed to include backup beepers from onsite trucks
 - Beepers modeled at 5 individual locations (loading docks) to represent worst-case positions
 - All stationary sources from prior modeling were included
- Goal to reduce sound levels from beepers in the community
 - Modify sound wall design
 - Additional height (20-foot and 15-foot segments)
 - 19,000 sf extra wall

2. Backup Beeper Consideration

Results

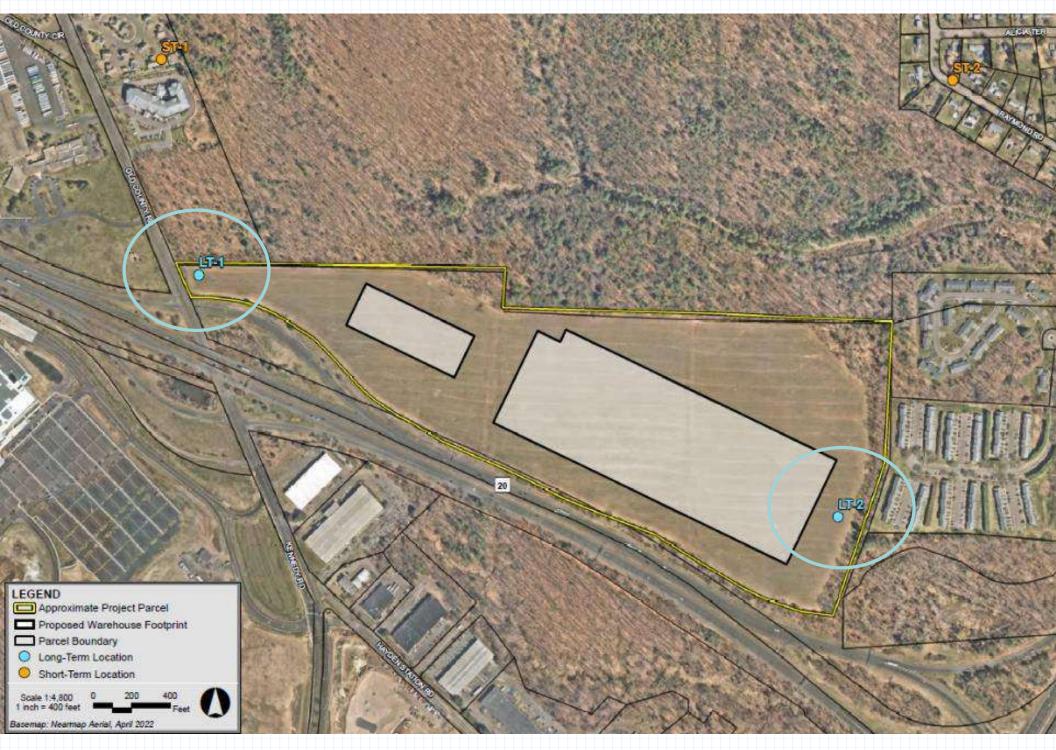

- Highest level from beeper (with stationary sources)
 with modified/larger sound wall
 - 54 dBA at Stonebrook Village property line
 - 51 dBA at Stonebrook Village building
- Other property lines predicted 49 dBA or less

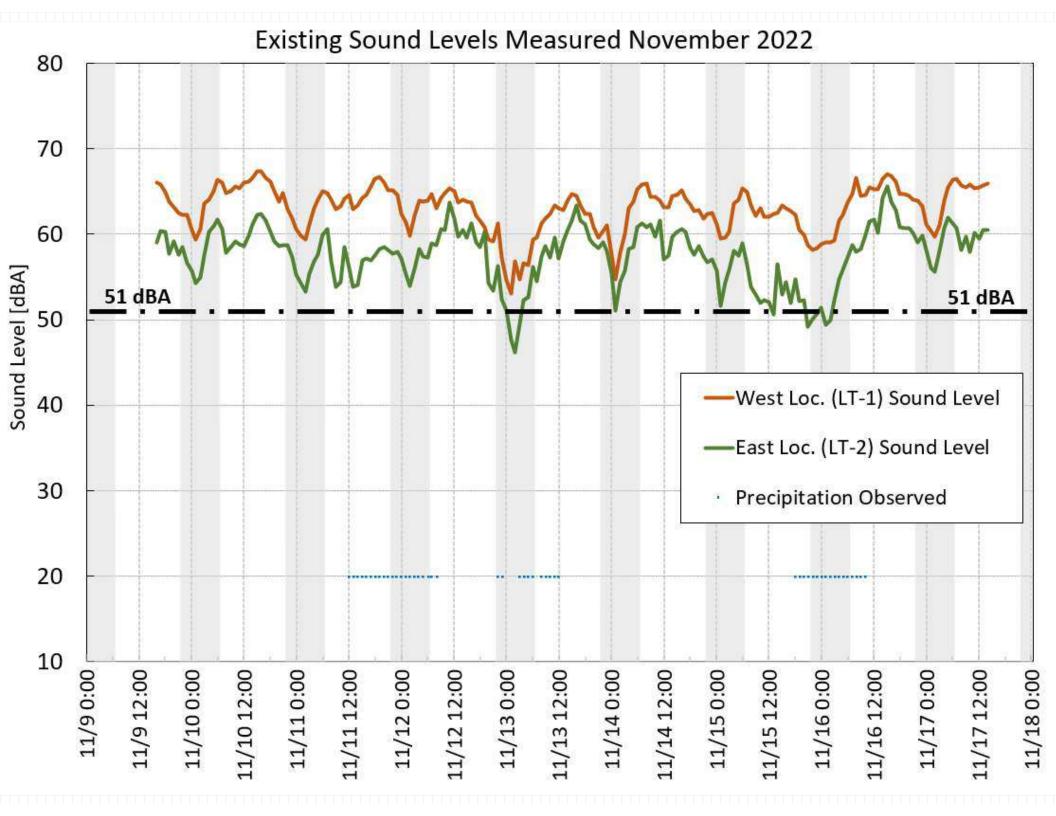

Existing Sound Levels (without the Project)

- Existing/ambient sound levels measured in November 2022
- Measurement locations
 - 2 locations for 8 days ("long-term")
 - 2 additional locations with Daytime and Nighttime sampling ("short-term")

Existing Sound Levels (without the Project)

Nighttime samples at short-term locations

Short-term Location	Nighttime Measurement Time	Nighttime Sound Level
Merrigan Lane (ST-1)	12:00 AM	50 dBA
Raymond Road (ST-2)	12:34 AM	48 dBA

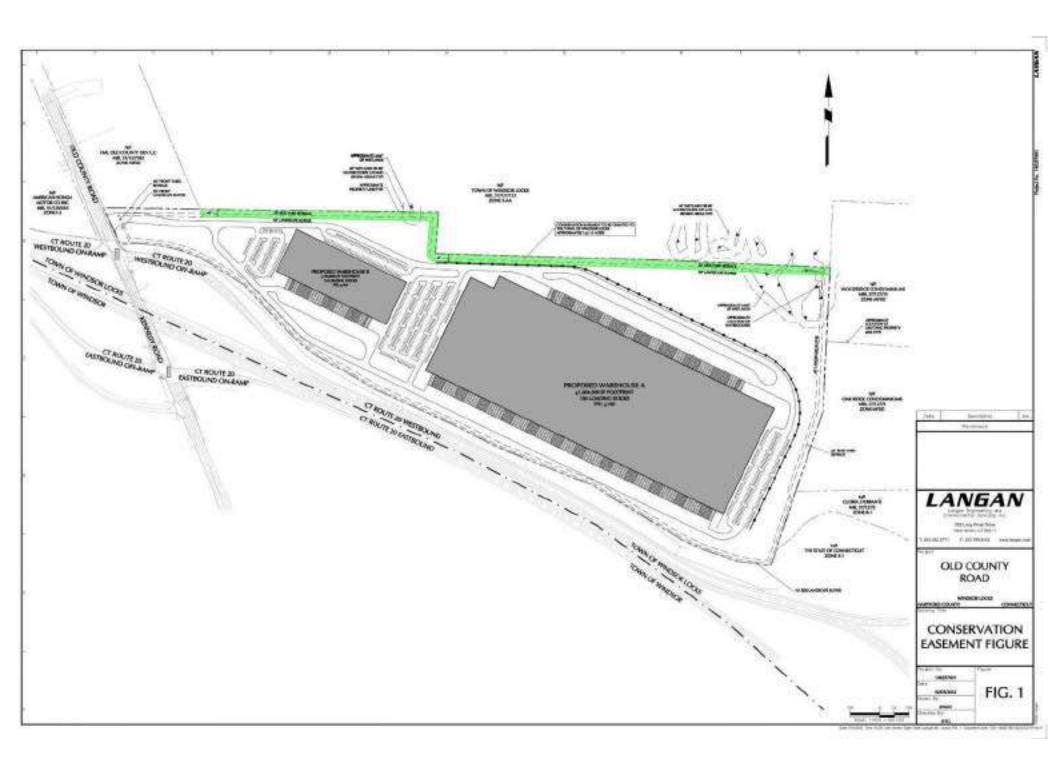

Sound Wall

Protection of the Waterworks Brook Conservation Area

- No direct wetland impacts anticipated by proposed development
- ASV significant wetland impacts 0.4 acre
- Stormwater management system compliant with DEEP SQM – would eliminate existing nonpoint agricultural runoff
- 40' wide conservation area buffer along north property boundary
- WWBCA resource mapping & trail improvements

<u>Summary</u>

- Significant tax revenue and jobs for the Town
- Facilitate development of undeveloped and underutilized property
- Project respects the Waterworks Brook
 Conservation Area and nearby properties
- Just the first step in the application process.
 We remain subject to the full PZC discretion that comes with a Special Use Permit.

Economic and Industrial Development Commission

SENT VIA EMAIL

June 12, 2023

Re: Thrall Property Zone Change

To Whom it May Concern:

On May 25, 2023, the Economic and Industrial Development Commission heard a presentation by Attorney Paul Smith and representatives from Scannell Properties, Langan Engineering, Points Technology Group and Goman and York regarding a proposed zone change for the Thrall property. After hearing the proposal and having the opportunity to ask questions, the Commission recommends that the zoning be changed.

Sincerely,

Valerie Mercey

Town Hall Office Building 50 Church Street Windsor Locks CT 06096

TO:

Planning and Zoning Commission

FROM:

Jennifer Valentino R., Town Planner

RE:

Zone Change - Old County Road

Date:

June 10, 2023

Application Summary and area description:

Scannell Properties #698, LLC has submitted a zone change application to change the zone from Business 1 with AIOZ to Industrial 1 and remove the AIOZ. Properties to the north are the 200 acres+/- Waterworks Preservation Area and vacant properties. To the east are residential condo uses and vacant properties. Route 20 is to the south. Industrial properties are across the street to the west.

The Zoning Regulations require supporting documentation, including a preliminary site plan, when an applicant is applying for a zone change. These submittals demonstrate compliance with the requirements. The Commission is only asked to decide about a zone change at this time, however, the submitted preliminary site plan provides a possible development scenario along with additional studies to allow for thoughtful discussion and decision making. This office is in receipt of the following supporting documents from the applicant:

- 1. Application Form, Fees, and Narrative
- Proposed Zoning Map prepared by Langan Engineering dated 4/5/2023
- 3. Preliminary Site Plan prepared by Langan Engineering dated 4/5/2023
- 4. Property Owner Authorization Letter
- 5. Legal description of the property
- Preliminary Wetland Resource Assessment dated 4/5/2023
- Waterworks Brook Impact Assessment dated 4/5/2023
- Preliminary Traffic Impact Assessment dated 4/6/2023
- Market Feasibility and Economic Impact Study dated April 2023 prepared by Goman + York
- Sound Level Assessment Report and Addendum dated June 9, 2023 prepared by Epsilon Associates Inc.

COMMENTS

1. PROPERTY HISTORY:

a. In September of 2015 the Planning and Zoning Commission approved the zone change from Business 1 to the Airport Interchange Overlay Zone per request of Simon Acquisition II, LLC.

- b. In October of 2018 the Planning and Zoning Commission approved the General Plan of Development for JABS Sports Management, LLC.
- c. In February of 2020 the Inland Wetland and Watercourses Commission approved a Site Plan for JABS Sports Management, LLC.
- d. In August of 2020 the Planning and Zoning Commission approved a Site Plan for JABS Sports Management, LLC.
- ZONE CHANGE, SECTION 1105: This section provides the applicant and commission with a procedural guide for such applications and a review of the various assessments submitted with it.
 - Zone Change application submittal requirements:
 - i. A Zoning Map was submitted.
 - ii. A narrative letter of explanation was submitted.
 - iii. A legal description was submitted.
 - A map of adjacent uses within 500 feet and abutters list of names and addresses was submitted.
 - A preliminary Site Plan with buildings, uses, parking as well as supporting studies and reports were submitted.
 - vi. Photos of the sign posted on the site regarding the public hearing, visible from a public street were submitted.
 - Preliminary Traffic Assessment A report was submitted detailing the trips of the
 anticipated proposed use relative to the approved All Sports Village (ASV) and while there
 would be increased truck traffic, the vehicle trips overall were significantly less.
 - c. Market Feasibility and Economic Impact Study A study was submitted for your review prepared by Goman & York. The document provides a summary of findings related to Economic Impact and Municipal net fiscal Impact for your review.
 - d. Preliminary Wetland Resource Assessment While this assessment, prepared by All-Points Technology Corporation, will be submitted to the Inland Wetland and Watercourses Commission at the time of any Site Plan Approval application, the applicant has provided it now for your review. The applicant reports that the proposed facility layout wetland impact, should the zone change occur, would be significantly reduced compared to the previously permitted ASV project.
 - e. Noise Study A Sound Level Assessment Report was submitted via email on 6/11/2023 for your review. I have not had a chance to review the report at this time however the study summary states that the project meets the noise regulations at all property lines.

3. CONNECTICUT GENERAL STATUTES, ZONE CHANGES:

- a. CGS 8-3 (b) "Such regulations and boundaries shall be established, changed or repealed only by a majority vote of all the members of the zoning commission, except as otherwise provided in this chapter. In making its decision the commission shall take into consideration the plan of conservation and development, prepared pursuant to section 8-23, and shall state on the record its findings on consistency of the proposed establishment, change or repeal of such regulations and boundaries with such plan."
- CGS 8-3 (c) whenever such commission makes any change in a regulation or boundary it shall state upon its records the reason why such change is made.

- 4. PLAN OF CONSERVATION AND DEVELOPMENT (POCD): In any municipality which has a combined planning and zoning commission operating under the general statutes, the commission shall state on the record its findings on consistency of a proposed zoning change thereof with the plan of development of the municipality. Below find relevant references for consideration.
 - a. Environment, Land and Natural Resources Page 55. Waterworks Brook Greenway This waterway is one of the longest undeveloped watercourse corridors within the Town of Windsor Locks. Most of this watercourse lies within what was previously known as the Connecticut Water Company's wellfield site in the southeast corner of Windsor Locks. The brook continues under I-91, through mostly undeveloped properties, to the Connecticut River. The CT DEEP's Natural Diversity Data Base (see above) shows an Area of Concern within the upper reaches of Waterworks Brook. The open space opportunities, recreational potential and existing wildlife habitat was realized in the 2007 Plan and the land has since been preserved, expanding the Town's greenway system. The community should look for ways to expand the preservation area onto adjacent parcels when appropriate or require significant natural buffers when adjacent parcels are developed.
 - b. Environment, Land and Natural Resources Page 57: Route 20 Corridor There are a few highly visible parcels being marketed for commercial development along the Route 20 corridor. The community should consider the opportunity to create and/or maintain a linear greenway consisting of a multi-use path adjacent to the highway right of way from approximately South Center Street to Hamilton Road. Such a greenway could incorporate natural features, portions of historic farm fields, connections to the Town of Windsor and other adjacent open space lands. Once established this could be an alternative travel way connecting Main Street to the airport corridor and could enhance any new development proposals.
 - c. Traffic and Transportation Page 70: Interstates and Expressways Windsor Locks fits into the northwest quadrant formed by I-91 and the Bradley Field Connector (Route 20), to the east and south respectively. These two expressways account for 4.6 miles of roadway abutting the Town. These roads have enhanced the Town's favorable position to attract business and industrial uses. The easy access to these expressways, particularly at the interchange of Route 20 and Old County Road, has made industrially and commercially zoned properties along this corridor highly desirable. Over the last few decades, several properties along these expressways have been developed by substantial, nationally known businesses and industrial firms.
 - d. Page 84 and 85, 11. To further develop concept for Route 20 Corridor Multi-Use Path
 - e. Pages 103 104 Old County Road. There is a large undeveloped business-zoned parcel consisting of about 76 acres of land bordered by the Bradley Field Connector (Route 20) and Old County Road. This property was most recently used for growing tobacco and is bordered on the north by the Waterworks Brook Park 104 preservation area. The property is accessed from Old County Road and it might be possible to provide a second access to South Center Street at the i-91 offramp. Although this highly visible undeveloped property is the largest business-zoned property left in Town, serious consideration as to its potential use under present zoning needs to be addressed since the ultimate development could be a significant asset to Windsor Locks. Mixed use, corporate office, or high-end industrial uses, not to include trucking or distribution, should be encouraged.
 - f. Page 125 Route 20 / Old County Road The Town applied for, and was selected, to conduct a CT DOT Regional Transportation Study via the Capitol Region Council of Governments. Properties abutting route 20 are highly visible opportunity sites, yet the corridor would benefit from strategic planning, infrastructure improvements (highway access, sewer, broadband) and increased connectivity both for vehicles and active transportation. The Corridor Study funding was not yet awarded due to a pause in State spending in 2018 2019, however, the community should continue.

to pursue such funds to realize this important effort. The 80 plus acre property along Route 20 and Old County Road, aka the Thrall property, the site abutting Ella Grasso Turnpike and Route 20 and underutilized land along Route 20 on the Collins Aerospace property are the largest vacant parcels remaining in Windsor Locks, requiring careful planning to find a highest and best use while minimizing impacts to current and future residents. Of particular concern is reducing truck traffic through residential neighborhoods and increasing traffic calming measures.

Buildings should be of high-quality design. The combination of visibility, accessibility and connectivity to multi-modal transportation gives the properties in this corridor high potential for diverse, intensive development with a complementary mix of residential, business, and high-end industrial uses. The right development can substantially increase real and personal property grand list growth, providing significant additional revenue to support municipal services for the entire community. The AIOZ zone provides a good foundation for the type of master planning approach that is needed for this property and corridor. If this property and others along Rt. 20 continue to remain vacant at the time of this Plan's implementation, the Town should consider conducting a corridor study to explore possible development scenarios, active transportation improvements such as a multi-use trail, utility needs and broadband services.

- PERMITTED USES SECTION 402 See Section 402 for uses permitted in the IND 1 zone. This zone
 change would permit such uses by Special Use Permit (SU) which allows the Commission to place
 conditions necessary to minimize negative impact on community.
- 6. ROUTE 20 CORRIDOR STUDY Windsor Locks is in the middle of an 18-month process of analyzing traffic and land use patterns and planning for future development along the Route 20 corridor, including intersecting streets of Old County Road and Route 75. The existing conditions, data collection and market findings have recently been presented to the community. Next steps include recommendations for the community related to road design, development scenario and policy changes.
- CAPITOL REGION COUNCIL OF GOVERNMENTS: This office will follow up regarding an updated referral letter.
- 8. EIDC COMMENTS: Comments were received and can be read into the record.
- 9. FIRE MARSHAL COMMENTS: Any comments should be read into the record.
- 10. POLICE CHIEF COMMENTS: None received
- 11. WPCA / DPW COMMENTS: None received
- 12. ABUTTING TOWN COMMENTS: None received
- 13. DECD and METROHARTFORD ALLIANCE: letters may be read into the record
- 14. Other testimony should be read into the record.

The Commission may want to carry the public hearing over to the July meeting in order to process the large amount of information submitted (some just this past weekend) and to gain further input from the public. However, there is a drafted motion for consideration, written in the affirmative, if the Commission wishes to move forward:

MOTION to approve the zone change request by applicant Scannell Properties #698, LLC to change parcel 056-127-001 on Old County Road from Business 1 with Airport Interchange Overlay Zone (AIDZ) designation to Industrial 1, also removing the AIOZ designation. This change shall be effective 15 days after the legal results are published as required.

Subject: Thrall Property on Old County Road Proposed Zone Change - I'm NOT FOR Zoning Change!

I'm sorry, but I cannot attend 6/12 meeting. I really wish I could be in attendance.

I'm not in favor of another warehouse going in off of Old County Rd, in Windsor Locks. The noise at night from Fedex, Honda, Ford and who knows

what else is off of Old County Rd is bad enough (trucks beeping, horns hocking, forklifts beeping/large noises from banging/people yelling at each

other over the noise). One cannot keep your windows open any time of the year, and I live on Copper Drive.

Old County Road cannot handle the increased traffic it now has because of all the warehouses, and the road itself is in super poor condition. The

potholes are very bad. and the speeding is even worse. So, adding more traffic is a huge concern I have.

The bus stops are a great addition, but standing up on the side of a hill is horrible unsafe, especially traffic flying by, and cars passing cars on the right

or left as they turn into Harvest, Laurel and Fox Hollow. When there is rain or worst yet, snow. Standing on that hill is super dangerous (south bond

buses).

Trying to get onto Old County Rd is a nightmare any time of the day for Windsor Locks residents. Another issue which has been happening more and

more is the drag racing at night (Old County Rd and route 20). Workers leaving warehouses at all different times at night with the super loud car mufflers

- they sound light gun shots going off.

We need to protect the waterworks and the CT water that runs through there now. On Copper drive and on Southwest Ave we have bears, bobcats, deer,

foxes, coyotes, and tons of different types of birds, Hawks and Eagles which all comes from their dens and nest from the waterworks property. Last year

there was a mother black bear and her two cubs which went over the fence from Southwest into the waterworks property. It was amazing to watch. My

neighbor across the street has a ring camera and some great photos of animals coming through. Having yet another huge parking lot with rainwater run off

full of car and truck fuel and other chemicals is not going to help any plant, human, or animal life around here. The roadkill on Old County is unbelieve every

day.

I am Not in favor of any zoning changes for another warehouse on the Thrall Property. Please keep me informed. If you have any questions on my

concerns, please feel free to contact me at my contact information is below.

Respectfully,

Paula Taylor

TO: WINDSOR LOCKS PLANNING AND ZONING COMMISSION

REPORT ON ZONING REFERRAL Z-2023-79: Proposed zone change submitted by Scannell Properties LLC for real property located on Old County Road/CT Route 20, from B-1 to I-1 and remove the 76 acre property from the Town's Airport Interchange Overlay Zone.

COMMISSIONERS: Receipt is acknowledged of the above-mentioned referral. Notice of this proposal was transmitted to the Policy and Planning Division of the Capitol Region Council of Governments under the provisions of Section 8-3b of the Connecticut General Statutes, as amended.

COMMENT: The staff of the Regional Planning Commission of the Capitol Region Council of Governments has reviewed this zoning referral and finds no apparent conflict with regional plans and policies or the concerns of neighboring towns.

The public hearing date has been scheduled for 7/20/2023.

In accordance with our procedures this letter will constitute final CRCOG action on this referral. Questions concerning this referral should be directed to Jacob Knowlton.

DISTRIBUTION: Planner: Suffield, East Granby, Windsor, East Windsor, Enfield

Respectfully submitted,

Good morning Jen,

I'm writing in regards to the application for a zoning change on the Thrall property. I am against any zone change for this. It seems they want to build the same huge warehouse, and they've just gotten new legal representation. This warehouse would impact the waterworks property in a negative way, with toxic fumes, noise, etc...as well as all the surrounding communities. Thank you.

Subject: My Comments re: Warehouse on Thrall Property for July,2023 PZC Mtg

With regards to the proposed 1million square foot warehouse proposed for the Thrall Property in Windsor Locks, I offer the following:

I begin with geography. Windsor Locks is located in the Connecticut River Valley. The Valley has been the perfect environment to raise tobacco because when the hot humid summer weather settles in the Valley-- it mimics the Cuban climate. That is precisely why a warehouse transversed with a battalion of diesel combustion engine tractor trailer trucks should NOT be allowed.

According to a Fact Sheet by California's Environmental Protection Agency- Office of Environmental Health Hazard Assessment and The American Lung Association of California there is a connection between health hazards associated with diesel exhaust. Succinctly, diesel exhaust contains more than 40 toxic air contaminants. Diesel exhaust increases the risk of cancer. Diesel exhaust contributes to smog and fine particle pollution and it can cause coughs and aggravate asthma. Longterm exposure to diesel fumes may lead to lung cancer, kidney damage and risk of heart attack.

Although the Fact Sheet cites "Improvements to diesel fuel and diesel engines have already reduced emissions of some of the pollutants associated with diesel exhaust, diesel exhaust remains one of the most widespread and toxic substances in California air." Given the hydrocarbon exhaust from airplanes at Bradley airport and exhaust from heavily traveled the I-91 highway, diesel fueled tractor trailers can only add to dangerously high toxic air levels.

By the way, I am a person living with adult-onset asthma.

Subject: Windsor Locks Mega warehouse concern Now a new industrial

code

Hello Jennifer, The idea of a new mega warehouse in my front area of Oak Ridge Condos could affect our current property values as well as an unsightly and noisy change, especially with a 175 tractor trailer loading docks, trucks coming in and out night and day. I believe the Woodbridge condo persons feel the same, even with tall sound proofing barriers isn't the answer. Zoning for that property should not be changed. IMPORTANT- We have a park the Town had purchased adjacent to the planned property. (old Water Co. land) that will minimize the beauty of peace and tranguil walks and could affect the wildlife too? Not sure which items the warehouse will be storing for transfer, but if it ever had an uncontained fire would /could impact the condos bordering this site. Just sending my displeasure that this is being considered. Not even sure of any environmental concerns that oils and petroleum can leak into the soil after rainfall that would get in the soil or streams nearby. Count my email as my voice. Thank you for the opportunity to do so. We don't even know what is being stored in warehouse. Chemicals and any flamables are a concern since Oak Ridge and Woodridge would border and could be a FIRE/ Explosion concern?

Subject: 7/10 planning and zoning

I am a resident of Windsor Locks and have been my whole life.

I am unable to attend the July 10th meeting about changing the zoning of the Thrall land off Old County Rd.

I would like to go on record with the opposition of this change.

We have enough trucks, pollution and noise in the area of Old County Road. This land does not need to be changed for the zoning to include a warehouse with so many trucks entering and exiting this land. It would negatively impact the area streets, air quality, town waterworks preservation land and residents living close by.

Please add my name and address to the list of people to vote no to this change.

Thank you.

Subject: TESTIMONY on the Thrall Property on Old County Road Proposed Zone Change (B-1 and

AIOZ to I-1)

Dear Town Planner Valentino:

Good afternoon. I am happy to submit the following testimony in opposition to the proposed zone change. My testimony includes three documents:

- 1. My written testimony, and two documents referenced therein, namely;
- 2. A Fact Sheet describing the proposed acquisition of the CT Water Company Land by the Town of Windsor Locks; and
- 3. The Press Release issued by the Trust for Public Land announcing completion of the acquisition transaction.

I hope you will share this information with the members of the Planning and Zoning Commission. Please contact me if you have any questions. Thank you for your assistance. All the best.

Carl

Carl Schiessl 93 Raymond Road Windsor Locks, CT 06096 (860) 752-8906 Shiz93@sbcglobal.net

TESTIMONY OF

CARL SCHIESSL, 93 RAYMOND ROAD, WINDSOR LOCKS, CONNECTICUT SUBMITTED TO THE

WINDSOR LOCKS PLANNING AND ZONING COMMISSION

Thrall Property on Old County Road Proposed Zone Change from Business Zone 1 (B-1) and Airport Interchange Overlay Zone (AIOZ) to Industrial Zone 1 (I-1)

Thank you for the opportunity to submit testimony concerning the proposed zone change to I-1 on the Thrall property on Old County Road. I oppose the zone change, since it will provide for the construction of a 1,000,000 square foot mega-warehouse next to the Waterworks Brook Conservation Area. As presently proposed, a development of this magnitude will surely have an adverse impact on the Waterworks Brook Conservation Area, absent careful and sound planning in advance of development, rigorous oversight during development, and constant monitoring of the Waterworks Brook Conservation Area after development.

Permanently Conserving the Waterworks Brook Property. As you will recall, 90% of the voters who participated in a December 9, 2008 referendum supported the permanent conservation of the Waterworks Brook Conservation Area by virtue of a partnership forged between town residents, local and state government officials, and The Connecticut Water Company. I submit a fact sheet from the campaign that describes this partnership. On September 22, 2009, the town completed the \$2 million purchase of a permanent conservation easement to preserve this land as a forest for all time. This purchase was funded in part with a grant of \$490,000 from the Connecticut Department of Environmental Protection's (DEP) Open Space and Watershed Land Acquisition Grant Program. I also submit for your consideration the press release issued by the Trust for Public Land, a national nonprofit organization that worked with us to permanently conserve the land.

As part of the approval process, the Connecticut DEP noted that the Waterworks Brook Conservation Area is a forested parcel that contains an extensive trail system for hiking, cross-country skiing, and wildlife viewing. In addition to its passive recreational value, the parcel features pristine water resources and a forest type that is recognized by the DEP as a "Habitat of Conservation Significance."

Page 1 of 6 7/16/23

Everyone in Windsor Locks, including those who serve in town government, entered into a partnership in 2009 with the State of Connecticut to conserve the land for all time for passive recreational purposes. This partnership must include anyone who owns property adjacent to this forest land. Any prospective new neighbor who might purchase the Thrall property from its current owner must agree to join this partnership and make every effort to protect and preserve the Waterworks Brook Conservation Area. Such a commitment from a new owner and/or developer can only be guaranteed by the diligent oversight of those currently serving in town government.

Questions for Commissioners about the New Rezone Application. On March 8, 2023, Scannell Properties withdrew an application to rezone the site to Industrial Zone 2 (I-2). This new application proposes to rezone the site to I-1. One justification offered by the applicants is that development sites located in an I-1 zone are subject to more intense scrutiny and oversight by local government than those parcels located in I-2 zones. To date, the only mechanism I have heard addressed by the applicants or Commissioners to achieve such oversight is by the special use permit process, which includes the imposition of certain conditions in advance of the development of a parcel of land. I pose the following questions for consideration by the Commissioners:

- (1) Is a special use permit the only means of controlling the development and use of property located in an I-1 zone, or are there other means available to local government to impose conditions and restrictions on development?
- (2) Once the site is fully developed and being used by the new owners, tenants or lessees, what mechanisms are available to the town to enforce the conditions and restrictions set forth in a special use permit or by other means?
- (3) If a use of the land after it is developed threatens or damages the Waterworks Brook Conservation Area, then what recourse would be available to local government?
- **Request**: I respectfully ask the Commissioners to address each of these questions either at the public hearing on July 20 or at a future Commission meeting held in advance of your taking final action on this application.

The Dimensions of the Buildings Proposed in the Applicant's Concept Plan. The applicant submitted a concept plan that includes two warehouse buildings, one that is sized at over 1,000,000 square feet. I seek confirmation of both the height and size of the 1,000,000 square foot mega-warehouse proposed for development on the site.

Page 2 of 6 7/16/23

Height Limitations. I respectfully ask the applicant to provide us with some additional information and context about the proposed height of the warehouses included in their concept plan. Specifically, will these new buildings be comparable in height to the two new warehouses on Hayden Station Road in Windsor, which appear to be up to 2-3 stories in height, or will they be as tall as the Amazon Fulfillment Center on Iron Ore Road in Windsor, which appears to be up to 5-6 stories in height? I think this information would be useful to those residents who are trying to better understand the height of this proposed mega-warehouse by comparing it to existing buildings in the area.

I hope that any buildings to be developed on the Thrall property are of a conventional height, meaning that they will fit into the existing landscape, e.g., be only as tall as the tallest fully-grown trees. While a taller building would create a stunning visual landmark for business, it would eclipse the surrounding area, redefine the horizon, and compromise the visual appeal of the Waterworks Brook Conservation Area. To many, such a building would be an eyesore.

I ask the Commissioners to acknowledge the fact that the Thrall property is located at a significantly higher elevation than the Waterworks Brook Conservation Area. Building a 6-story mega-warehouse on the Thrall property will tower over the conserved land, and diminish the aesthetic value and natural appeal of this neighboring Habitat of Conservation Significance.

• **Recommendation #1**. I respectfully ask Commissioners to consider including in the special use permit or other use restrictions some limitation on the height of any building to be constructed on the site.

Size Limitations. In terms of building size, I respectfully ask the Commission to consider adopting some limitation on the percentage of the Thrall property that may be developed. Based on the diagram submitted by the applicants in support of the concept plan, it appears that a 1,000,000 square foot mega-warehouse will occupy an inordinately large amount of the land included in the tract. This massive footprint will create grave engineering challenges, in terms of managing the water running off of the roofs, loading docks, parking lots, and driveways supporting a mega-warehouse. Limiting the size of any new buildings and paved areas on the site will mitigate these challenges, and create additional open space on the Thrall property to accommodate water running off this site.

• **Recommendation #2**. I respectfully ask Commissioners to consider including in the special use permit or other restrictions some limitation on the size (e.g., square footage) of any buildings to be constructed on the site, and perhaps on the percentage of the property that may be developed.

Page 3 of 6 7/16/23

<u>Dedicated Buffer Zone</u>. I appreciate the applicant's inclusion in the concept plan of a dedicated buffer zone in the northeast corner of the parcel. Based on my review of the concept plan, it appears that this buffer area will include a water management feature, (e.g., a retention pond) in order to accommodate the formidable water management challenges created by a 1,000,000 square foot mega-warehouse surrounded by paved areas for tractor trailer traffic and parking.

The inclusion of this design feature by the applicant in their concept plan constitutes an affirmation and acknowledgement of the formidable water management challenges associated with the construction of a 1,000,000 square foot mega-warehouse on property located at a substantially higher elevation than the Waterworks Brook Conservation Area.

• Recommendation #3. It is imperative that local officials carefully scrutinize the development of any water management measures in advance of approving any zone change or development plan, and commit to monitoring the runoff of water from the mega-warehouse site into the Waterworks Brook Conservation Area as an affirmative duty arising from your status as a protector of this Habitat of Conservation Significance.

Do Not Encroach Upon the Waterworks Brook Conservation Area. A local official made a comment during the public hearing on June 12, 2023 indicating that the dramatic drop in elevation between the two properties will require extraordinary water management measures, such as dedicating a portion of the Waterworks Brook Conversation Area to fortify water management measures on the Thrall property. Such a solution is unacceptable in that it would violate the spirit and intent of preserving the Waterworks Brook Conservation Area as a Habitat of Conservation Significance. Rather than infringing upon the Waterworks Brook Conservation Area in any way, we urge the Commission to address any water management challenges relating to the development of the Thrall property wholly within the borders of the Thrall property.

• Recommendation #4. Local officials must to refrain from making any changes to the Waterworks Brook Conservation Area to accommodate the development of the Thrall Property in any way. We expect local officials to comply with the spirit and intent of the permanent conservation easement.

Sound Walls, Loading Docks, and Tractor Trailer Parking Along the Northern and Eastern Borders. I appreciate the applicant's proposal to install sound walls along the northern and eastern borders of the Thrall property, and to eliminate loading docks and tractor trailer parking spaces along those same borders. Those of us who live in the vicinity appreciate any effort to reduce the noise associated with the development and use of the Thrall property.

Page 4 of 6 7/16/23

While the trees, shrubs, and bushes in the Waterworks Brook Conservation Area and on the Thrall property may impede or reduce the amount of noise and light emanating from the site, I urge each Commissioner to remember that such mitigation is effective for only six months of the year, during the months of April through October. From November through March, the trees and shrubs are bare, and any natural barriers to noise and light are gone.

I believe that it is imperative for the Commissioners to consider the impact of noise and light on the Waterworks Brook Conservation Area at all times during the year, given its status as a Habitat of Conservation Significance. The presence of an active megawarehouse business adjacent to this permanently conserved land will result in increased noise and light. Such use will surely impact the flora and fauna that may occupy or pass through the area. This circumstance is a unique consequence of proposing to develop a mega-warehouse adjacent to permanently conserved forested land.

• Recommendation #5. If the Commissioners opt to proceed with a zone change, I urge you to incorporate into such approval (i) a requirement that the developer install sound walls and other noise abatement measures along the northern and eastern borders of the Thrall property, and (ii) a prohibition on the location of loading docks and tractor trailer parking spaces along the northern and eastern borders of the Thrall property. Such restrictions should be incorporated into the terms of any special use permit or other conditions or restrictions applicable to the site.

<u>Maintenance of the Waterworks Brook Conservation Area</u>. During the June 12, 2023 public hearing, a consultant for the applicant shared a slide entitled "Protection of the WWBCA." Included on this slide was the following bullet: *Resource mapping and trail improvements*. The applicant discussed the possibility of engaging the town in a discussion of potential improvements to the Waterworks Brook Conservation Area specifically with respect to walking trails throughout the site. I have another suggestion for your consideration.

In 2009, when the town completed its purchase of the permanent conservation easement, it neglected to provide for the maintenance and upkeep of existing barbed wire fencing along those borders of the parcel that abut residential homes. Since the acquisition of the property, this fencing has fallen into disrepair in several places, due to normal wear and tear and falling trees and limbs. The failure to maintain and repair this fencing has become a public safety issue, given the influx of bear, coyote, moose, bobcats, fox, and other wildlife into the Waterworks Brook Conservation Area.

• Recommendation #6. If the Commissioners or other local officials opt to consider accepting the applicant's offer to fund improvements to the Waterworks Brook Conservation Area, then I urge you to dedicate any such funds to the maintenance, repair, and upkeep of the existing border fencing as a top priority, and of the

Page 5 of 6 7/16/23

existing driveway and parking lot located off South Center Street as a secondary priority, rather than for the purpose of making any changes or improvements to the trails and pathways.

<u>One Final Question for Your Consideration</u>. I implore each Commissioner to consider and comment on the following scenario: Assume the zone change is granted and the applicant builds its 1,000,000 square foot mega-warehouse. Months later, we discover that the water running off the Thrall property is flooding the Waterworks Brook Conservation Area, rendering its walkways useless to hikers, threatening the wildlife living on the land, and defeating the purpose of permanently preserving the land for passive recreational uses.

What would be the town's recourse to address and correct this situation?

I urge you to contemplate this question and collectively develop an answer that is legally and financially plausible and sustainable in advance of taking action on this application. If you cannot develop an acceptable answer to this question, then I urge you to reject this application.

The Planning and Zoning Commission, along with the Conservation Commission, the Inland Wetlands Commission, the Board of Finance, and the Board of Selectmen are the protectors of the Waterworks Brook Conservation Area. We urge this Commission to zone the Thrall property on Old County Road in a manner that imposes the most stringent design, use, and operational controls on the Thrall property in order to guarantee that the impact of any such development and use on the Waterworks Brook Conservation Area will be negligible, and that the land we all agreed to save in 2009 will remain a cherished natural asset for the benefit of the wildlife species that call it home and the residents and visitors who enjoy it.

There are no second chances when it comes to preserving the Waterworks Brook Conservation Area. Please help us keep this land safe. Thank you for your consideration of my questions and recommendations.

Carl

Page 6 of 6 7/16/23

Conserve the CT Water Co. Land

The Waterworks Conservation Group urges you to VOTE YES in the Special Town Election on Tuesday, December 9th.

The Town of Windsor Locks has a once-in-a-lifetime opportunity to conserve 224 acres of land currently owned by Connecticut Water Company on South Center Street. The water company no longer needs the Waterworks property for its drinking water supply, and could sell it for development if it is not conserved.

Working with a nonprofit organization, The Trust for Public Land, the Town has an opportunity to acquire a conservation easement on the property for \$2.16 million, ensuring that the land will <u>never</u> be developed. The easement will <u>guarantee permanent public access</u> for activities such as hiking, wildlife viewing, cross-country skiing, and outdoor education classes. The purchase must be approved by voters in the special town election on Tuesday, December 9th. Conservation of this land will:

Protect the last major parcel of open space in town

Conserving the Waterworks property will provide the Town a large, scenic area with woods, trails, wetlands, streams, and wildlife, where we can go to enjoy nature right here in Windsor Locks. The investment in this land will improve the quality of life for current and future generations.

Save the taxpayers money

If the land is developed into house lots, the costs of education and municipal services will far exceed tax revenues from the new homeowners. Added development is a burden on all of us. Studies across the country show that towns that invest in open space save money in the long run.

Leave a legacy for our children and grandchildren
 Our kids need a place to be outside, get exercise, and learn about
 nature. The Waterworks property contains a wealth of wildlife
 and provides a unique opportunity to "get away from it all."
 Conserving this land is not only good for the environment, it's
 good for people.

A pond in the northwest portion of the property. Photos by Alden Warner.

The following support the conservation of the CT Water Company property:

/ Board of Finance

/ First Selectman Steve Wawruck

/ Conservation Commission / Selectman Joe Calsetta

/ Planning and Zoning Commission / State Representative Peggy Sayers

"There isn't a lot of open space left in the town and this is 224 acres. It's a gorgeous, pristine piece of property, full of mature trees, beaver ponds, and streams. In the long run, probably the least expensive thing the town can do is conserve the land."

- Cornelius O'Leary, Chairman, Windsor Locks Board of Finance

- Frequently-Asked Questions

If voters approve the purchase, who will own the 224-acre property?

The Connecticut Water Company will hold title to the land, but the Town will own a conservation easement which is permanent and legally binding on the current and future owners. A conservation easement will save more than St million over outright ownership, and will guarantee that the land is never developed, that it remains in its natural state forever and open to the public to enjoy. This is the least expensive option.

If we turn down the purchase, what could happen to the property?

The Connecticut Water Company has a legal obligation to first offer this land to the Town; but if the offer is refused, they may sell it to another party, including a developer.

What kind of parking, trails, and other amenities exist on the land?

There is a parking area at the South Center Street entrance. A network of unpaved roads and trails exist throughout the property that people will be able to use from dawn to dusk for passive recreational activities, such as hiking, wildlife viewing, and cross-country skiing. Motorized vehicles will not be allowed beyond the parking area. No hunting will be allowed on the property.

Why isn't the Town purchasing the land outright?

With the transaction structured as a conservation easement, the costs to the Town can be kept as low as possible. The Town will permanently protect the land from development and benefit from guaranteed public access to the property, but at a much lower cost than if the land were purchased outright.

What will this cost taxpayers?

The Town plans to issue a 20-year bond to pay for the conservation easement. The estimated impact on a homeowner tax bill is one-tenth of a mill. For an average homeowner, this translates to approximately \$25 year. The Town has also applied for a state grant that will defray the costs to the Town by up to \$500,000, or nearly 25% of the total cost. Awards are expected to be announced in November.

Map of the 224-acre Waterworks property

Windsor Locks Conserves "Water Works Brook" Property (CT)

Connecticut September 22, 2009

WINDSOR LOCKS, CT, September 22, 2009 – The Town of Windsor Locks today completed its \$2 million purchase of a conservation easement from Connecticut Water Company for the 198-acre South Center Street property in Windsor Locks, known as the "Water Works Brook" parcel. The town's purchase, coordinated by The Trust for Public Land, permanently protects the largest remaining open space in Windsor Locks.

Windsor Locks First Selectman Steve Wawruck said, "Thanks to the outstanding support of our voters and the commitment of our staff, Connecticut Water, and TPL, we were able to complete the purchase of this pristine property. The purchase allows current and future generations of town residents to enjoy the property without having to be concerned about its future development." The conservation easement permanently protects the land, while at the same time the town is not incurring the cost of an outright property purchase.

The purchase was made possible through the combined effort of the town, Connecticut Water, The Trust for Public Land, state officials and the local community. The town retained The Trust for Public Land (TPL), a national non-profit conservation organization, to help negotiate and coordinate the conservation easement purchase and identify grant money to minimize the cost to the town. The town will receive a grant of \$490,000 from the Department of Environmental Protection Open Space and Watershed Land Acquisition Grant program toward the purchase.

"We are grateful for the opportunity to help protect the last remaining natural area for Windsor Locks," said Whitney Hatch, Connecticut state director, The Trust for Public Land. "It is a remarkable property and its permanent protection is a testament to the will of the voters and reflects the strong partnership that worked tirelessly for an important conservation outcome."

The Water Works Brook parcel has been owned by Connecticut Water Company for more than 50 years and was used as a public drinking water supply source. When the company informed the town that it no longer needed this well field for water supply purposes, Windsor Locks expressed a strong interest in preserving the site for open space and recreational purposes-a stated goal in the town's Plan of Conservation and Development. In late April 2008, the town contacted The Trust for Public Land to assist in this land conservation transaction.

Connecticut Water and the town were able to close on the sale once the company received necessary approvals from the Department of Public Utility Control and the Department of Public Health and the Town received approval from the Department of Environmental Protection.

"We did not want to see land like this sold for development, especially knowing how much support the community has for its preservation for open space and recreation." said Maureen P. Westbrook, Connecticut Water's Vice President of Customer and Regulatory Affairs. "We are proud to work with the community and be part of something where the outcome is beneficial to all parties involved."

DEP Commissioner Amey Marrella said, "DEP is pleased that we were able to help fund the 198-acre 'Water Works Brook' property. This property is particularly impressive because it is the largest area of unfragmented forest land in Windsor Locks and its forest is recognized by the DEP as a 'habitat of conservation significance' that will further protect declining wildlife species and habitats. Protection and preservation of this land make it possible for visitors to enjoy year round outdoor activities such as hiking and cross-country skiing, along with viewing of native wildlife."

The local support for this purchase was evident in the fall of 2008, when more than 100 residents attended informational sessions and 400 walked the property during tours hosted by Connecticut Water. In the December 2008 referendum on the purchase, the vote passed by a resounding 90 percent margin.

"In protecting this property, we are preserving the quality of life for Windsor Locks residents. This will be a wonderful asset for the community for years to come," said State Representative Peggy Sayers.

The forested parcel contains an extensive trail system for hiking, cross-country skiing, and wildlife viewing. In addition to its recreational value, the parcel contains pristine water resources, and a forest type that is recognized by the State Department of Environmental Protection as a "Habitat of Conservation Significance."

The partners are planning a public opening celebration on site, for October 3, at 12:30 p.m.

Connecticut Water Company serves nearly 300,000 people in 54 towns in Connecticut. The towns served include: Ashford, Avon, Beacon Falls, Bethany, Bolton, Brooklyn, Burlington, Canton, Chester, Clinton, Colchester, Columbia, Coventry, Deep River, East Granby, East Haddam, East Hampton, East Windsor, Ellington, Enfield, Essex, Farmington, Griswold, Guilford, Hebron, Killingly, Lebanon, Madison, Manchester, Mansfield, Marlborough, Middlebury, Naugatuck, Old Lyme, Old Saybrook, Plainfield, Plymouth, Portland, Prospect, Somers, South Windsor, Stafford, Stonington, Suffield, Thomaston, Thompson, Tolland, Vernon, Voluntown, Waterbury, Westbrook, Willington, Windsor Locks and Woodstock.

The Trust for Public Land (TPL) is a national nonprofit organization which works with others to conserve land for people to enjoy as working landscapes, parks, gardens, and natural areas, ensuring livable communities for generations to come. TPL has protected over 5,000 acres of open space, watershed land, working farms and forestland, and historic resources in 32 communities across the state.

Subject: Unable to attend the July 20 Public Hearing.

Dear Ms. Valentino,

I am Windsor Locks town resident and like to state that I would like to go on record with this written testimony that I OPPOSE the zone change from B1 to I1 for the Thrall property on Old County Road.

I am opposing this zone change because

- It will increase the noise in our residence area.
- It will add the additional pollution in the air from its operation as a warehouse with trucks.
- A mega-warehouse that close to my residence will reduce my property value.

Thank you

Regards,

Navinchandra Bhuva

Date: July 14, 2023

Dear Ms. Valentino,

I am Windsor Locks town resident and like to state that I would like to go on record with this written testimony that I OPPOSE the zone change from B1 to I1 for the Thrall property on Old County Road.

I am opposing this zone change because

- It will increase the noise in our residence area.
- It will add the additional pollution in the air from its operation as a warehouse with trucks.
- A mega-warehouse that close to my residence will reduce my property value.

I am supporting to have a residential area. From residential area, town will collect more taxes and it will be win win situation.

Thank you

Regards,

Rasiklal T Bhuva

Subject: Thrall property

Dear Ms. Valentino,

I am writing to express my opposition to the building of a warehouse on the Thrall property off of Old County Road and behind Oak Ridge Condominiums. As a resident of Oak Ridge, I have many concerns of which I am sure you are familiar: the light, sound, and general unpleasantness of such a building in my backyard; the effects on the protected watershed area; the impact to wildlife including pushing them into residential and road areas; the impact on property values; and the blocking of the horizon and sunset which we enjoy every day.

Thank you for taking my thoughts and the thoughts of other citizens into account when making decisions about this area.

Sincerely, Amy Watkins 144 Oak Ridge Dr Windsor Locks Town of Windsor Locks Planning and Commission 50 Church Street Windsor Locks, CT 06096

Attention: Ms. Valentino

Bonnie L. Emmons, 31 Woodridge Drive, Windsor Locks, Connecticut

) am unable to attend the Planning and Zoning meeting schedule for July 20, 2023 in regards to the Thrall Property on Old Country Road, Zone Change from 81 to L1. I ask that this latter be added to the minutes of that meeting.

I am strongly opposed to the Zone Change for the following reasons:

- 1. This property is less than 500FT from my property at 31 Woodridge Drive, which I purchased in February of 2023. At the time of purchase, I was unware of this pending Zone Change and would have rethought my purchase of my forever home had I know. The noise pollution and air quality index will be significantly higher than it is now. Six (6) months out of the year there is no tree cover and the noise and air quality index will be even higher and a warehouse will be what I will be looking at out my front door.
- My property abuts the Thrall Property and if this warehouse/zoning change happens, it will decrease my home value forever.
- 3. On many occasions I have walked the Waterworks Brook Conservation area and have enjoyed it solitude. If the zone change occurs I am concerned for the conservation area and the effects that this zone change/warehouse development will have on this area. The hazardous runoff that the warehouse will create will greatly impact the wildlife, trees and would violate the soul essence and intended use of the Waterworks Brook property.
- 4. The traffic on Old County Road and Route 20 is abysmal. The road conditions, traffic and traffic speed on Old County Road to Elm Street are grossly mistreated and misused. Adding additional tractor trailers and vehicles only adds to this misuse. How can Scannell Properties, without proper oversight, guarantee that their proposed change in traffic flow exiting the facility will abide by the restriction set forth, "Tractor trailers will not be allowed to make a right hand turn onto Old County Road?" What governing body will guarantee that the right turn will not be violated?

I am asking the Commission that they need to evaluate all the facts and then consider what having this warehouse in our backyards will do to our town. Do the benefits outweigh the harm that this facility might create?—The Commission needs to remember, if this change from 81 to 11 occurs there is <u>MO</u> going back!

Bonnie Emmons

Town of Windsor Locks
Planning and Zoning Commission
50 Church Street
Windsor Locks, CT 06096

Attention: Jennifer Valentino

My name is Daniel J. Rossi and I currently reside at 434 Elm Street, Windsor Locks, CT, 06096.

Do to unforeseen circumstances I cannot attend the Planning and Zoning meeting scheduled for July 20, 2023 in regards to the Zone Change to the Thrall Property from B1 to I1. I ask that this letter be added to the minutes of that meeting.

I strongly oppose the Zone Change for the following reasons:

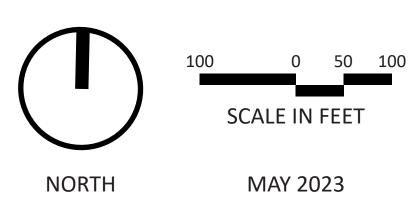

- I have strong concerns of hazardous runoff and noise pollution from the planned Zone Change. These
 changes will DIRECTLY impact the abunting neighborhoods such as Woodvidge Drive, Oak Ridge Drive,
 Village and Merrigan Ln AS WELL AS disrupting wildlife, trees and the screne USE of the Weterworks
 Brook Property area.
- 2. I am opposed to the added traffic on Old County Road. Although, it has been stated by Scannell Properties that trucks will not be allowed to make a right hand turn out of the facility, Scannell Properties can not 100% guarantee that this will not beginn. Who will be there to monitor this and who will enforce this?
- 3. I am opposed to the added unhealthy diesel fumes that will be floating in the air that would impact the Waterworks Brook Property and surrounding neighborhoods.

t am asking the commission that they consider long and hard before any changes are made to the zoning. Do the benefits outweigh the harmful effects that these changes would cause to our local ecosystem, the already congested traffic on Old County Road and the air quality index issues that we already experience?

Respectfully,

Daniel J. Rossi

Subject: Thrall property zone change

Planning and zoning committee,

We are writing this to state that we are opposed to the request for zoning changes to the Thrall property. The massive warehouse structure will create noise, light and air pollution, especially for the residents that live close to the area. The affects of all this pollution on the Waterworks Brook Conservation area would be detrimental. We believe that having more trucks in that area will cause some safety issues. The quality of life for people nearby and their property values would be diminished.

The planning and zoning committee should carefully consider this decision. Once it is approved and the mega warehouse is built, there is no going back. This is the last large piece of land left in town so it is an important decision for the whole town.

Lastly. We have heard that other towns in this state and many towns in other states have said "no" to the mega warehouse trend, and their P and Z committees have listened to their residents. We hope you will do the same.

Thank you, Cindy and Pete Pikul 22 Alicia Terrace

Mr. Paul M. Harrington, First Selectman Town of Windsor Locks, CT 50 Church Street Windsor Locks, CT 06096

Dear First Selectman Harrington.

LAZ Parking Realty Investors, LLC ("LPRI") in conjunction with LAZ Parking own and operate a nationwide portfolio of parking-related properties. This includes three sites located in the Town of Windsor Locks, CT along Elia Grasso Boulevard that service the parking needs of the airport.

LPRI is supportive of the proposed "Old County Road" project in Windsor Locks and the role it will play in the continued development and growth of the surrounding community. We believe the associated job creation and continued positive momentum in the market will benefit not only other landowners such as ourselves but also The Town as a whole including its residents, as a rising tide lifts all boats.

Sincerely.

Ted Silverman

Mr. Paul M. Harrington, First Selectman Town of Windsor Locks, CT 50 Church Street Windsor Locks, CT 06096

Dear First Selectman Harrington,

The Department of Economic and Community Development (DECD) is the state's lead agency responsible for strengthening Connecticut's competitive position in today's rapidly changing knowledge-based global economy. The agency actively assists existing businesses and works to attract new businesses and jobs with a wide range of programs and services to help companies prosper.

The DECD is supportive of the proposed "Old County Road" development off Old County Road and Route 20 in Windsor Locks and the role it will play in the development and growth of the state and the region's supply chains and services.

The proposed \$143.2 million project will create jobs and generate revenue that will inure to benefit the Town of Windsor Locks, the state at large and the businesses and consumers that will ultimately be served.

The Department of Economic and Community Development supports the location of Project Old County Road in the Town of Windsor Locks and looks forward to working with you and the entire community in helping this development take place.

Thank you.

Sincerely,

George Norfleet Executive Director

RE: Zone Change – Old County Road

Date: Revised July 20, 2023

Application Summary and area description:

Scannell Properties #698, LLC has submitted a zone change application to change the zone from Business 1 with AIOZ to Industrial 1 and remove the AIOZ. Properties to the north are the 200 acres+/- Waterworks Preservation Area and vacant properties. To the east are residential condo uses and vacant properties. Route 20 is to the south. Industrial properties are across the street to the west.

The Zoning Regulations require supporting documentation, including a preliminary site plan, when an applicant is applying for a zone change. These submittals demonstrate compliance with the requirements. The Commission is only asked to decide about a zone change at this time, however, the submitted preliminary site plan provides a possible development scenario along with additional studies to allow for thoughtful discussion and decision making. This office is in receipt of the following supporting documents from the applicant:

- 1. Application Form, Fees, and Narrative
- 2. Proposed Zoning Map prepared by Langan Engineering dated 4/5/2023
- 3. Preliminary Site Plan prepared by Langan Engineering dated 4/5/2023
- 4. Property Owner Authorization Letter
- 5. Legal description of the property
- 6. Preliminary Wetland Resource Assessment dated 4/5/2023
- 7. Waterworks Brook Impact Assessment dated 4/5/2023
- 8. Preliminary Traffic Impact Assessment dated 4/6/2023
- 9. Market Feasibility and Economic Impact Study dated April 2023 prepared by Goman + York
- 10. Sound Level Assessment Report and Addendum dated June 9, 2023 prepared by Epsilon Associates Inc.

COMMENTS

1. PROPERTY HISTORY:

a. In September of 2015 the Planning and Zoning Commission approved the zone change from Business 1 to the Airport Interchange Overlay Zone per request of Simon Acquisition II, LLC.

- **b.** In October of 2018 the Planning and Zoning Commission approved the General Plan of Development for JABS Sports Management, LLC.
- **c.** In February of 2020 the Inland Wetland and Watercourses Commission approved a Site Plan for JABS Sports Management, LLC.
- **d.** In August of 2020 the Planning and Zoning Commission approved a Site Plan for JABS Sports Management, LLC.
- **2. ZONE CHANGE, SECTION 1105:** This section provides the applicant and commission with a procedural guide for such applications and a review of the various assessments submitted with it.
 - a. Zone Change application submittal requirements:
 - i. A Zoning Map was submitted.
 - ii. A narrative letter of explanation was submitted.
 - iii. A legal description was submitted.
 - iv. A map of adjacent uses within 500 feet and abutters list of names and addresses was submitted.
 - v. A preliminary Site Plan with buildings, uses, parking as well as supporting studies and reports were submitted.
 - vi. Photos of the sign posted on the site regarding the public hearing, visible from a public street were submitted.
 - b. Preliminary Traffic Assessment A report was submitted detailing the trips of the anticipated proposed use relative to the approved All Sports Village (ASV) and while there would be increased truck traffic, the vehicle trips overall were significantly less.
 - c. Market Feasibility and Economic Impact Study A study was submitted for your review prepared by Goman & York. The document provides a summary of findings related to Economic Impact and Municipal net fiscal Impact for your review.
 - d. Preliminary Wetland Resource Assessment While this assessment, prepared by All-Points Technology Corporation, will be submitted to the Inland Wetland and Watercourses Commission at the time of any Site Plan Approval application, the applicant has provided it now for your review. The applicant reports that the proposed facility layout wetland impact, should the zone change occur, would be significantly reduced compared to the previously permitted ASV project.
 - e. Noise Study A Sound Level Assessment Report revised June 9, 2023 was submitted via email on 6/11/2023. The study summary states that the project meets the noise ordinance at all property lines.

3. CONNECTICUT GENERAL STATUTES, ZONE CHANGES:

- a. CGS 8-3 (b) "Such regulations and boundaries shall be established, changed or repealed only by a majority vote of all the members of the zoning commission, except as otherwise provided in this chapter. In making its decision the commission shall take into consideration the plan of conservation and development, prepared pursuant to section 8-23, and shall state on the record its findings on consistency of the proposed establishment, change or repeal of such regulations and boundaries with such plan."
- b. CGS 8-3 (c) whenever such commission makes any change in a regulation or boundary it shall state upon its records the reason why such change is made.

- **4. PLAN OF CONSERVATION AND DEVELOPMENT (POCD):** In any municipality which has a combined planning and zoning commission operating under the general statutes, the commission shall state on the record its findings on consistency of a proposed zoning change thereof with the plan of development of the municipality. Below find relevant references for consideration.
 - a. Environment, Land and Natural Resources Page 55. Waterworks Brook Greenway This waterway is one of the longest undeveloped watercourse corridors within the Town of Windsor Locks. Most of this watercourse lies within what was previously known as the Connecticut Water Company's wellfield site in the southeast corner of Windsor Locks. The brook continues under I-91, through mostly undeveloped properties, to the Connecticut River. The CT DEEP's Natural Diversity Data Base (see above) shows an Area of Concern within the upper reaches of Waterworks Brook. The open space opportunities, recreational potential and existing wildlife habitat was realized in the 2007 Plan and the land has since been preserved, expanding the Town's greenway system. The community should look for ways to expand the preservation area onto adjacent parcels when appropriate or require significant natural buffers when adjacent parcels are developed.
 - b. Environment, Land and Natural Resources Page 57: Route 20 Corridor There are a few highly visible parcels being marketed for commercial development along the Route 20 corridor. The community should consider the opportunity to create and/or maintain a linear greenway consisting of a multi-use path adjacent to the highway right of way from approximately South Center Street to Hamilton Road. Such a greenway could incorporate natural features, portions of historic farm fields, connections to the Town of Windsor and other adjacent open space lands. Once established this could be an alternative travel way connecting Main Street to the airport corridor and could enhance any new development proposals.
 - c. Traffic and Transportation Page 70: Interstates and Expressways Windsor Locks fits into the northwest quadrant formed by I-91 and the Bradley Field Connector (Route 20), to the east and south respectively. These two expressways account for 4.6 miles of roadway abutting the Town. These roads have enhanced the Town's favorable position to attract business and industrial uses. The easy access to these expressways, particularly at the interchange of Route 20 and Old County Road, has made industrially and commercially zoned properties along this corridor highly desirable. Over the last few decades, several properties along these expressways have been developed by substantial, nationally known businesses and industrial firms.
 - **d.** Page 84 and 85, 11. To further develop concept for Route 20 Corridor Multi-Use Path
 - e. Pages 103 104 Old County Road. There is a large undeveloped business-zoned parcel consisting of about 76 acres of land bordered by the Bradley Field Connector (Route 20) and Old County Road. This property was most recently used for growing tobacco and is bordered on the north by the Waterworks Brook Park 104 preservation area. The property is accessed from Old County Road and it might be possible to provide a second access to South Center Street at the I-91 offramp. Although this highly visible undeveloped property is the largest business-zoned property left in Town, serious consideration as to its potential use under present zoning needs to be addressed since the ultimate development could be a significant asset to Windsor Locks. Mixed use, corporate office, or high-end industrial uses, not to include trucking or distribution, should be encouraged.
 - **f.** Page 125 Route 20 / Old County Road The Town applied for, and was selected, to conduct a CT DOT Regional Transportation Study via the Capitol Region Council of Governments. Properties abutting route 20 are highly visible opportunity sites, yet the corridor would benefit from strategic planning, infrastructure improvements (highway access, sewer, broadband) and increased connectivity both for vehicles and active transportation. The Corridor Study funding was not yet awarded due to a pause in State spending in 2018 2019, however, the community should continue

to pursue such funds to realize this important effort. The 80 plus acre property along Route 20 and Old County Road, aka the Thrall property, the site abutting Ella Grasso Turnpike and Route 20 and underutilized land along Route 20 on the Collins Aerospace property are the largest vacant parcels remaining in Windsor Locks, requiring careful planning to find a highest and best use while minimizing impacts to current and future residents. Of particular concern is reducing truck traffic through residential neighborhoods and increasing traffic calming measures.

Buildings should be of high-quality design. The combination of visibility, accessibility and connectivity to multi-modal transportation gives the properties in this corridor high potential for diverse, intensive development with a complementary mix of residential, business, and high-end industrial uses. The right development can substantially increase real and personal property grand list growth, providing significant additional revenue to support municipal services for the entire community. The AIOZ zone provides a good foundation for the type of master planning approach that is needed for this property and corridor. If this property and others along Rt. 20 continue to remain vacant at the time of this Plan's implementation, the Town should consider conducting a corridor study to explore possible development scenarios, active transportation improvements such as a multi-use trail, utility needs and broadband services.

- **5. PERMITTED USES SECTION 402** See Section 402 for uses permitted in the IND 1 zone. This zone change would permit such uses by Special Use Permit (SU) which allows the Commission to place conditions necessary to minimize negative impact on community.
- 6. ROUTE 20 CORRIDOR STUDY Windsor Locks is in the middle of an 18-month process of analyzing traffic and land use patterns and planning for future development along the Route 20 corridor, including intersecting streets of Old County Road and Route 75. The existing conditions, data collection and market findings have recently been presented to the community. Next steps include recommendations for the community related to road design, development scenario and policy changes.
- **7. CAPITOL REGION COUNCIL OF GOVERNMENTS:** CRCOG found no apparent conflicts. Letter has been added to the record.
- 8. FIRE MARSHAL COMMENTS: None received.
- 9. POLICE CHIEF COMMENTS: None received
- 10. WPCA / DPW COMMENTS: None received
- 11. ABUTTING TOWN COMMENTS: None received
- 12. Other comments or testimony should be read into the record.

A drafted motion for consideration, written in the affirmative, if the Commission wishes to move forward:

MOTION to approve the zone change request by applicant Scannell Properties #698, LLC to change parcel 056-127-001 on Old County Road from Business 1 with Airport Interchange Overlay Zone (AIOZ) designation to Industrial 1, also removing the AIOZ designation. This change shall be effective 15 days after the legal results are published as required.
